CLEVELAND'S STRIKE PARLEY TO OPEN LATE TODAY

**LEWIS GIVES UP HOPE OF GETTING
MORE OPERATORS TO ATTEND MEETING
AND DECIDES TO "BUCK 'ER THROUGH"**

**Miners' Leader Seems Determined That An
Agreement Shall Be Made Which Will Be
Considered National In Scope And Effect**

TONNAGE REPRESENTED IS UNKNOWN

CLEVELAND, Ohio, August 10.—The peace parley between leaders of the striking miners and the coal operators of the central competitive district is to be opened here late today.

President John L. Lewis, chief of the miners, will no longer wait for the operators of Indiana, Illinois and Western Pennsylvania to come into the conference. The decision to go forward with the conference, however, was looked upon as indicative that the insurgents would either join the conference later or abide by its decisions, for Lewis was determined that the settlement would be final and national.

Powerful organizations of coal operators in four districts threatened to become disrupted over the wage scale adjustment.

It became apparent today that neither miners nor operators at the conference knew how much tonnage is represented. Estimates vary between 50,000,000 and 100,000,000 tons, however. Refusal of the Illinois operators to attend was a setback. Announcement had been made that one Illinois district with a tonnage of 6,000,000 tons would have representatives here.

The policy committee of the United Mine Workers met at 10:00 A. M. today to discuss the situation in Western Pennsylvania.

Cleveland, O., Aug. 10.—For a second time the joint inter-state conference of miners and operators delayed action yesterday to permit the holdouts to decide whether they would participate in negotiations to end the soft coal strike. Adjournment was taken until today.

As a forerunner to the conference session today, the union committee will meet this morning to pass finally on the question of a prospective settlement which would affect most Ohio mines, as also scattered ones in Pennsylvania, Indiana and Illinois.

These four states form the central competitive field.

The committee also expects to consider extension of the central field to other parts of Pennsylvania and West Virginia.

The new arrivals among the operators included Thomas H. Watkins, owner of several big mines in Central Pennsylvania, and Harry Olmstead, a representative of Williamson county, West Virginia, operators. Both of these operators said they were here only as observers.

PRETTY HOME WEDDING IN EAST END

At the home of her parents, Mr. and Mrs. W. E. Davis on Eleventh street, Miss Orrell Lenore Davis was united in marriage to Mr. Reginald Stevens of Woodland. The ceremony was performed at 6 o'clock Tuesday evening, August 8, 1922, by Rev. Oliver S. Hartman of Emmanuel Reformed church, York, Pa., who is a cousin of the bride. The bride was attired in tan silk canton crepe and carried roses. Miss Salome Davis, sister of the bride, and Charles Palmer of Woodland were the attendants. The wedding march was played by Mrs. Kathryn Palmer.

At the conclusion of the ceremony a wedding supper was served to the guests. Mr. and Mrs. Stevens, accompanied by Mr. and Mrs. Charles Palmer, of Woodland, left Wednesday morning for an auto trip through the New England States. They will also visit relatives in York, Gettysburg and Philadelphia before their home.

WILLIAM Z. FOSTER, BREEDER OF TROUBLES, LEAVES DENVER QUICKLY

Denver, Aug. 10.—Forceful ejection from Colorado by State Rangers yesterday of William Z. Foster, leader of the steel strike three years ago, and nationally known labor organizer, was "for the best interests of the state" and "no law was consulted," Adj. Gen. Hamrock said today.

Foster, who was characterized as a "dangerous radical" by the adjutant general, was taken from a hotel after his arrival from Salt Lake City, placed in an automobile and escorted to the Kansas state line, Hamrock announced. Previously it had been

TWO LITTLE GIRLS BURIED ALIVE WHEN HIGH BANK CAVES

Youngstown, Aug. 9.—Lucille Gebour, 7 years old, and Mildred Joseph, 8 years old, were killed today, when they were buried under tons of earth in a cave in on Pike Street. The girls, with Edith Connelly, 4 years old were playing in the sand near an embankment 20 feet high. The Connelly girl started to run across the street when she heard the other's scream and saw the embankment cave in.

Workers dug away tons of sand before they discovered the bodies.

FORMER RESIDENT DIES AT AKRON

Word was received here by local friends this morning that Mrs. Selma Weller, wife of Frank Weller, former residents of Clearfield, passed away at her home in Akron, Ohio, last evening. Mrs. Weller had been suffering from an enlarged spleen and other complications but death came unexpectedly. The funeral will be held from her late home Saturday afternoon at 2 o'clock.

Cherry Tree Claims The First Flapper; Evidence Sure Enough To Convict

Cherry Tree knocked at the door of Pennsylvania's Hall of Fame for other historical recognition when the city fathers laid claim to its having developed the first "flapper". Forty two years ago the following item appeared in the Indiana Messenger, under Cherry Tree happenings:

"Three of Cherry Tree's lumps of sweetest sweetness recently concluded it would be just too awfully smart to play a joke on a man by one of them taking off her hoops and hanging them on his gate. The hoops were so dirty, however, that he didn't tinkle to the joke thinking some old cow had got them on for horns in an alley and left them on the gate. Don't be so 'fresh' next time."

LEADERS OF BOTH HOUSES TALK TO PRESIDENT TODAY ON TWIN STRIKES

Washington, D. C., Aug. 10.—President Harding will confer today with Republican congressional leaders to determine just what Congress will do if its members return next Tuesday to aid in meeting the critical strike situation. At present it appears that Congress can aid in only two ways.

First.—By conducting an investigation into the strikes that will place the issues squarely before the public.

Second.—Provide legislation incident to seizure of the railroads or both.

The opinion is freely expressed at the Capitol that it would not bring an end to the controversy to pass anti-strike legislation at this time or put teeth in the Railroad Transportation Act as a penalty for refusal to obey the decisions of the Railroad Labor Board. Anti-strike legislation could not be passed without a bitter and long fight in both houses. Measures to strengthen the transportation act would be of little value, some members hold, because legal proceedings could block for months the putting into effect of any decision that either party to the dispute did not approve.

Ben W. Hooper, chairman of the Railroad Labor Board, arrived here (Continued on Page 7).

Just Us Three

Sally Coburn (left) and Lorna Whitlesey were posing for their photo at the horse show at Stamford, Conn., when "Jingie Bell," the jealous thing, poked his head right into the picture.

STONE BACKS UP JOLIET RAILROAD MEN WHO QUIT JOB

Cleveland, Aug. 10.—Railroad Brotherhood chiefs here yesterday served notice that their members might decide for themselves whether objectionable working conditions at railroad terminals in connection with the strike justify their remaining away from their jobs.

"We are not going to have our men shot up, beaten or threatened at railroad shops or yards," Warren S. Stone, president of the Brotherhood of Locomotive Engineers, said when told that several hundred members of the Big Four had gone out at Joliet, Illinois.

"When the men cannot go to work without having irresponsible armed guard men approach them they may go home and stay there until the condition is removed," he said.

The three brotherhoods with headquarters here have telegraphed representatives at Joliet backing up the refusal of 1,300 engineers, trainmen and workers of the Elgin, Joliet and Eastern to return to work while state troops were on guard.

Miss Mary Greff, who is visiting Mrs. D. B. McCarty of Nichols street, leaves Friday morning for Wellsville and Hornell, N. Y., to visit friends, before returning to her home in Pittsburg.

GAS MASKS IN BIG DEMAND ON UPPER END OF SECOND ST.

Ralph Gulich, Jim Gray Alex Hynd, Doc Reichhold and a lot of other fellows living up along the river are out gunning for a reckless auto driver who caused more than a commotion in their peaceful community last evening, when he, knowingly or unknowingly, guided his car across the back of a big fat pole cat.

Gulich says he was raised on a river bottom farm and has had considerable experience with the lowly skunk, and while he never could find out where they got the "perfume" they are so generous with at times, he now knows how they get it. The animal killed near his place last evening had been to the source of supply and was carrying back with him enough of the powerful fluid to supply every pole kitty in upper Lawrence township. He sniffed it all when the car hit him, hence the wrath of the citizenry around and about for blocks in every direction.

Purchased Irvin Timber Tract Containing Near Half A Million Feet

A. M. Stine, the local lumberman, closed the deal on Monday last, where by he became the owner of a tract of timber, part of which is located in Curwensville Borough, which contains nearly five hundred thousand feet of saw timber.

The purchase was made from Hugh M. and Elizabeth Irvin, the timber lands being a part of the Col. E. A. Irvin Estate. Mr. Stine is arranging to move his mill to Curwensville and will begin the work of cutting the timber at once.

Prominent Druggist Of Punxsutawney Dies In Bed Of Bad Heart

Charles M. Feicht, a leading druggist of Punxsutawney and one of its finest citizens died at his home on East Mahoning Street yesterday morning at a little after 7 o'clock. Death was due to acute dilation of the heart. Mr. Feicht would have been 47 years of age the 5th of September.

Tuesday the deceased was in his usual state of health and when he retired there was apparently nothing wrong with him. In the morning, at a little after 7 o'clock while in bed, Mrs. Feicht heard him gasp and tried to awaken him. Failing she called a physician who pronounced him dead.

COMMUNITY SERVICE DOING HERE JUST WHAT THE NAME IMPLIES

**Report For Month of July Shows Excellent Work
Being Done By This Organization With a View
To Making Neighbors Of All Our People**

EVERY BRANCH OF WORK IS A SUCCESS

The report of Clearfield's Community Service for July, recently issued, shows a highly satisfactory state of affairs. The most satisfying feature of the report is the fact that more than one thousand—1,007 to be exact—agreed to contribute \$5,361.50 for the purpose of providing innocent amusements and healthy recreation for young America in Clearfield.

Playground Activities.
Playgrounds are being maintained in the different wards, while a great deal of interest is being stimulated in baseball, horse shoe pitching, volleyball and other sports, while the wee folks, too small to engage in such games are entertained and provided for on the playgrounds where healthful exercises or games are carried on and story telling to the little folks engaged in three times per week.

Twilight League Baseball.
The Twilight League has three divisions known as the general or industrial section, which is made up of representatives of the Red Hat Knitting Machine Factory, Reedsville, I. O. O. F., Hillside and K. of C. The Sunday School branch is divided into the Senior and Junior divisions. The Senior division embraces the C. I. C. and Brotherhood of the West Side Methodist church, the Presbyterian and Lutheran teams, while the Sunday School Juniors are representatives of St. Francis and West Side M. E.

The record for the month follows:
No. of games 28
Players in each game 20
Attendance 2100
The baseball league was organized about May 15th under the direction of Prof. Clair Ross.

Volley Ball.
Volley ball activities are confined largely to No. 1 and No. 2 Fire Companies, with No. 3 looking in on one

game. There were five volley ball games during the month, in each of which 12 players participated, with an average attendance of 125 spectators.

Playground Work.
Playgrounds are located at corner of Reed and Fourth streets for First ward, Wither Park for upper First and Second wards and at Reedsville, also for Second Ward; the Driving Park for Third ward and Murray's woods for Fourth ward. A very great deal of interest is being taken by the children in these recreation grounds. The attendance during the first three weeks of the month reached 3,782. While for the last week it jumped to 2,119 or a total of almost 6,000 children for the month.

In addition to the regular daily recreational attendance, community parties were held in the Second, Third and Fourth wards, which brought out an average of 330 people to each or 1,000 for the three parts.

Story telling parties for the little folks were held at all the playgrounds three times each week, amounting to 40 individual hours. This feature was in charge of Miss Isabel Powell. Play leaders' parties were also held, totaling 40 hours, while 5 play leaders were awarded certificates for 24 hours' duty on the playgrounds. This activity was carried on under the direction of Mrs. Philip B. Reed.

General Activity.
The local interest and voluntary labor was more or less sporadic, as is the case with all new departures in Clearfield. An agitation for an organization of Girl Scouts has been started and will be worked out to a successful conclusion and those in charge of Community Service are to be congratulated upon the fine showing made during the past month.

Maryland's Best Cow

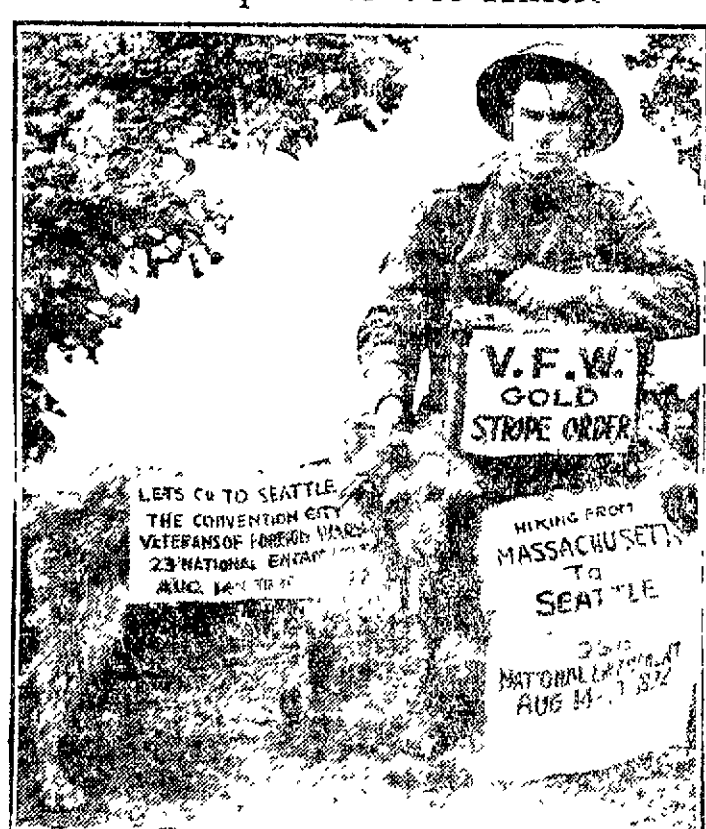

This Holstein cow on the government farm at Beltsville, Md., produced 25,000 pints of milk last year. It takes those 21 cans to hold her supply of milk for one month, 2627 pounds.

TWELVE PERFECTLY NICE GIRLS GO IN BATHING IN CREPE PAPER SUITS

New York, Aug. 10.—Twelve good-thicker than ever, looking young women wearing crepe. The 12—who, by the way were em-paper bathing suits appeared yesterday-plays of a story in Philadelphia—day afternoon on the beach at Wild-tripped gaily to the water's edge, paused there an instant and then de-

By jumping up and down on the liberally walked into the water. The outskirts of the crowd it was possible crowd stood with eyes popping out, to catch a glimpse of them now and wondering how soon it would begin then. But those who got there early to blush. And were in the center of the throng. But into the surf the girls went, said the young women looked quite ankle high, knee high, waist high, charming. and then completely under. The "Do you suppose they're going in beach through water for them to re- with those flimsy things on?" was the answer. One of them came up, then a- whispered that pulsed through the as- other. There was a catch in it. Indeed they were and they did. The is had on woolen suits under. The surrounding mob separated just the paper. a little to give the 12 room to pass. Even as the paper melted away, so toward the surf, and then closed in the crowd.

Feed on Dead Animals.
In the plantless world, the animals largely depend on the food supply upon the carcasses of dead animals which sink through the muds of dark, cold water.

SAFE MILK IS A SURE MILK
That sounds like an Irish Bull but it's a cold, hard fact. Call our milk safe because we know it is. It is perfect, safe to feed to any infant, modified of course to meet some conditions. But safe from a standpoint of being absolutely pure. And it's a sure milk for we're sure that you may be sure in the results that it will produce in the way of brawn and muscle building. Just look at the kiddies whose mothers say, "This is a bottle fed baby and we get our milk from the local dairy company." Every one is as husky and strong as most of the babies fed in the natural way. Their little bodies are round and plump, their muscles are strong and vigorous, the mental condition is at or above normal for their age.

The mystery of a mother's love, the sensitiveness of her sympathy, the vastness of vision of her intuition the sublimity of her self sacrifice can never be surpassed.—Alexander Lyons.

The Peacemaker.
English magistrate (to a man who continued to fight after a policeman appeared)—"When the policeman comes, the fight is over. He is a peacemaker. It does not matter who is ahead on points. It is a draw from that moment."

First Christian King of Europe.
Lucius, a legendary king of Britain, is, by a Vatican manuscript, accorded the honor of being the first Christian king in Europe. Profane historians have failed to locate him. He asked Pope Eleutherius in 182 A. D. to baptize him. This was done and he went on a proselyting tour in France which ended in martyrdom.

Financial Outlook.
"Why do you object to children in the houses which you have to let?" "As a matter of kindness. People who are raising families can't be expected to pay the rent I require."

Menus of the Nations.
Ireland's national food is the potato. The Hindu's national food is rice. The national food of Germany is pork. The French are the greatest vegetable eaters. Italians like oil-foods. Russia's national food is ry. America has no national food.

Speed of the Stars.
The velocity of a star seems to be a factor of its effective age. Unlike our ordinary human experience, the speed of a star increases with its advancing years, and in the whirl of spheres above us it is the young who cannot keep the pace.

Brooks Fletcher Best Chautauqua Lecturer Ever Heard In City

Wednesday's session of the Chautauqua was the best that has ever been presented of the fine list of the Swarthmore Company entertainments. In the afternoon the program was exceptionally strong and in the evening the Russian Cathedral Quartet and Brooks Fletcher made an impression on Chautauqua goers that will last for years.

Brooks Fletcher, the Marion Editor made the strongest appeal of any lecturer that has ever visited Punxsutawney. He has a message and can deliver it. He holds the grown people and children forget where they are. His message in this world is to put children in the right track when they are young and impressionable and hold on there. He can tell a story in a manner that will make his audience forget anyone exists but the lecturer and he can make the audience jump, or nervous, just as he wishes. It is the consensus of opinion here that Brooks Fletcher is the best there.

Ford's Plan To Run Kentucky Rail Shops Rejected By Workers

Frankfort, Ky., Aug. 9.—Governor Morrow today advised E. G. Leibold, Henry Ford's Secretary at Detroit, that conditions at Corbin are such that the Ford plan of operating the shops of the Louisville & Nashville railroad and the Eastern Kentucky coal carrying lines is "theroughly impractical." The Governor's telegram follows: "Find shopmen and other railroad employees at Corbin would not accept of work under offer as made by the Ford railroad. I am confident the proposition cannot be worked out at either end of the working lines and therefore is impractical."

Gave Name to Great Invention.
Bunsen burner was invented by Robert Wilhelm Bunsen (1811-1892), born in Göttingen, Germany, for almost 50 years a great teacher and investigator in Heidelberg university.

Elephant On Rampage IN HARRISBURG YARDS

Harrisburg, Aug. 9.—Hundreds of people who lined the streets this morning waiting for a circus parade were startled at seeing a charging elephant on his way back to the railroad yards. The elephant apparently was on strike and wanted the sympathy of the onlookers. He jumped two fences, tore up a beet garden on his rampage and hoisted a couple eight-ton trucks in his free demonstration before he was finally corralled between two freight trains in the yards. Not satisfied with this, he broke his keeper's ribs on the way back to the circus grounds. He is said to be the second largest elephant in captivity, over twelve feet in height and tipping the scales at ten tons.

ODDS AND ENDS AND THINGS

By J. D. C.

What's the matter with Clearfield? We haven't heard of a boy baby being born hereabouts for a month of Sundays. It's girls! girls! girls!—everything girls! They say an excess of boy babies presage war two decades hence and if that be true we need have no fear of wars in 1942.

The results of the first straw vote ever taken in Germany on the Prohibition question showed an overwhelming majority today in favor of Prohibition as prescribed in the United States.

This balloting was conducted in the first police precinct of Bielefeld, and of 14,069 qualified voters, 12,626 voted for prohibition, 416 against and 1,022 declined to vote. Five others were unaccounted for. The test was organized by the newly appointed campaign committee for the German prohibition movement, which plans to take similar votes in other parts of the country.

We don't like to discourage a lot of amateur painters, but we must say that the latest word from New York's "40s" is that women of that ultra-feminine set have ceased to paint and are using powder very sparingly when they use it at all. Consequently it is no longer fashionable or the proper thing to use rouge.

In a little while we may expect to see a decreasing number of female-whose faces present two deep red spots, one on either cheek, with chalk white nose and chin, resembling nothing quite so much as the face of a monkey.

If our painter lady friends don't feel like dropping the brush and paint box right off the reel they might direct their talents in the direction of beautifying the family rain barrel.

Immigration Commissioner Husband's report as to the working of the restrictive immigration law during the first nine months ending on March 31 showed that the total of arrivals (524,478), exceeded the total of departures (488,638) by only 35,840. Immigration movement from Southern to Eastern Europe is offset by the homeward movement. The Italians admitted during this period numbered 39,181. But those who returned to the Old World in the same period numbered 42,371. The Polish quota as fixed by law for the period under consideration was 27,108 and 25,800 were landed. But the newcomers were more than offset by departures, for the records show that 27,895 Poles returned to their homeland.

During the same period 19,301 French arrived and 6349 returned; 21,409 Germans came and 3798 went; 9789 Scandinavians immigrated and 2888 emigrated, so that the Anglo-Saxon strain is not being overwhelmed as one hears.

Census figures from ten States and the District of Columbia indicate that the general expectation of life in the United States has increased 3.75 years for men and 2.71 for women in the last ten years. It is now 53.98 years for men and 50.33 for women.

The States are the six in New England, and New York, New Jersey, Indiana and Michigan. Kansas leads with 55.78 years for men and 50.89 for women. There are no ten-year comparison figures for Kansas.

Of the fourteen largest cities in

the country Washington has the highest expectation, 53.83 for men and 50.83 for women. Pittsburgh is lowest, with 47.15 for men and 50.42 for women.

The other day in talking with a rural citizen and an old-time school director of his township, the ancient one was seeing things thru very dark blue spectacles and wondering what was going to become of us all. He took a rap at the recent legislation boosting school teachers' salaries and said, "why right in my township now young girls just out of school start in at \$70 per month, when I remember when M. R. Ogden from your own town and other old teachers taught school in our township for \$35 per month and they paid their board out of it, too." He continued, "the trouble with the State Educational Department now is that they are trying to do away with the rural schools by trying to drag the pupils into the town or central high schools."

In this connection an extract from a recent address of State Supt. of Public Instruction Finegan might not be out of place. In addressing the teacher students of the summer school branch of the Indiana Normal school at Altoona last Saturday Dr. Finegan made a plea for fair play for the students who are forced to attend the rural schools.

Dr. Finegan was very emphatic in his denial of ever having intended to wipe out the country school. He declared that such was not his wish even if it were within his power to do so, but he did desire to present an equal opportunity to the children of the rural districts and those of the city schools. He stated that the greatest fundamental factor in the schools is the teacher and those of the rural districts should be encouraged to carry on their vocation of the city.

Dr. Finegan declared that the country schools have made poor progress and therefore the boys and girls of the rural sections labor under a handicap. He stated that good schools are greatest asset of the commonwealth and it gave him much pleasure to see that a group of young folks were willing to spend their summer vacation in preparing themselves to handle the great work of educating the American of the future.

He stated that the normal schools of the state are overflowing with students and before many years Pennsylvania will have so many trained teachers that she will have no place for many of them. It is the plan of the department of public instruction to measure up to certain requirements before September 1, 1927.

"That will be a great day when the millions of pupils in the public schools of Pennsylvania are met at the door by a trained teacher. We must beat the other states to it. It will be the nation's greatest investment," said Dr. Finegan.

Speaking of the finances of the state schools, Dr. Finegan declared that Pennsylvania pays but 15 per cent while some states pay much more, notably New Jersey, where 43 per cent of the cost of education is borne by the state. He declared that he wants people to write to him and talk over their differences. He will appreciate any suggestions and if he can be shown where he is wrong in his policies will be glad to admit it. "It would be a better plan than fussing about the matter around the country store or in the Grange meeting," said Dr. Finegan.

See it in your Red Envelope

WHY? IS THERE "SILK" ON AN EAR OF CORN

THE substance which we term "silk" on an ear of corn before it has been husked and cleaned is really the father of the corn itself, because each little grain on the ear has received sustenance has been "fertilized" and enabled to reach its full growth—by means of the threads of silk-like construction.

Each ear of corn is composed of three principal parts: The grains which grow on a cob, the silk and the husk. The function of the latter is merely of a protective nature. It keeps the driving rain and the burning sun from damaging the tender kernels or grains, which are the seeds of the plant. But each one of these grains must receive its supply of pollen-powder if it is to develop into a large, juicy, tempting morsel or if it is to grow into a fully developed seed which, in turn, will produce another stalk of corn. This pollen it gets from the silk-like threads which appear even before the grains themselves are well differentiated, while they are almost indistinguishable marks or ridges upon the cob. But even then it is possible to tell just how many grains of corn will appear upon the full-grown ear. To do this it is necessary only to count the strands of "silk" for each one of these fortifies a grain and assists in bringing it to maturity.

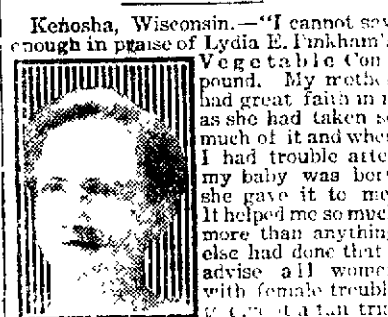

Agricultural Certainty.
"Is there any sure way for a farmer to be prosperous?"
"Well," replied Farmer Cornus, "there's an element of luck in every thing. The only sure way for a farmer to be prosperous is to do over and over well."—Washington Evening Star

Italy's City of Flowers.
Florence, Italy, is known as the city of flowers. The famous iris of Florence are produced from the foot of the large purple iris or iris which is grown extensively throughout the surrounding districts.

Acid-Proof Corks.
Corks steeped in vasoline are a fine substitute for glass stoppers. Neither acids nor anything else will affect them, and even chemical fumes do not eat them.

YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Keshosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to get a bottle of it and I am sure they will feel as I do about it."—Mrs. P. H. Smith, 662 Symonds St., Keshosha, Wisconsin.

A medicine that has been in use nearly fifty years and has received the praise and commendation of mothers and grandmothers is worth your consideration. If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.

The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

Chalmers' Recipe.
The grand essentials of happiness are something to do, something to love and something to hope for.—Boston Transcript

His Lucid Moment.
"This lets me out," said the dilapidated professor, as he opened the door. Yacuse Orange Peel.

Immensity of Mammoth Cave.
There are one hundred and fifty miles of avenues in Mammoth cave.

Optimistic Thought.
He should possess wealth who knows how to use it.

Public Opinion.
Public opinion moves nations. It also moves so often that many people are unable to find it.

Hobby Talk.
When you talk about your hobby, don't talk longer than five minutes about it. After five minutes, hobby talk becomes foolish.—Atchinson Globe

Charm in Difficult Undertakings.
Providence has hidden a charm in difficult undertakings which is appreciated only by those who dare to grapple with them.—Mine Switchblade

Steel Knives.
A good steel blade improves with age. You should scour yours every day to keep it in good condition and lengthen its usefulness.

And Often Does.
Gossip can take an inch of fact and stretch it into a yard of scandal.—Boston Transcript

Beginning of Great Industry.
The first bale of cotton exported from this country to Europe was shipped from Charleston, S. C., in 1784.

Primitive Methods of Smelting.
The ancient Mexicans reduced gold ore by dragging granite rocks over the quartz spread about in a circular groove.

Old Structures in Bavaria.
There are houses still standing in Nuremberg, Bavaria that were built in 1080.

Lots of People Are Going to Be Disappointed When They Want To Join The Thrift Club

Only Seven More Applications Accepted

Folks have joined the Frederick Thrift Club in greater numbers than was expected—they have seen the advantages that have been offered and have taken them as they are.

The Clearfield Frederick Thrift Club was allotted a certain number of instruments—of the number only seven remain to be placed in the homes of members who recognize the thrift idea behind this great movement to put music in musicless homes and put better instruments in homes where there already was an instrument but were not satisfied with them.

Now, we have given you all the details of the plan in previous issues of this paper—how we take all the risk; how we protect you against fire, sickness, unemployment; how we do everything in our power to make your membership in the FREDERICK THRIFT CLUB just as pleasant and secure as possible.

And FINALLY—WE MAKE YOUR MEMBERSHIP IN THE CLUB LAST AS LONG AS YOU WISH, that is, your dues or payments can be spread out over a period long enough so that you will be enjoying music in your home long, long before your would in case you started to save to pay cash for an instrument.

IT'S FAR BETTER TO BE GLAD YOU
DID THAN TO WISH YOU HAD. SO
DON'T PROCRASTINATE ANOTHER
MINUTE. SIGN THE APPLICATION AND
SEND IT TO THE STORE AT ONCE.

APPLICATION FOR MEMBERSHIP

Gentlemen:—

Please enter my application for membership in your THRIFT CLUB.

I herewith pay you the membership fee of One Dollar (\$1.00), which, if my application is accepted, will entitle me to a full membership in your Thrift Club, together with all the Club advantages if I select a Thrift Club piano or player-piano at your store after my application is accepted, it being distinctly understood that if my application is rejected or if I decide not to make a selection, the membership fee will be refunded.

I am interested in

The editor of Farm Life says:

"We are not greatly concerned that Miss Alice Robertson, congresswoman from Oklahoma, is a Republican, nor that she has taken a somewhat decided stand upon the bonus question. These are mere incidents. The big thing is that she opened her campaign the other day by reading a selection from the Bible, and announces that she is a Christian and an American and that she never makes any, pre-election promises. That is good enough platform. We can hardly agree with the farmer editor. Have we not been fooled aplenty by Bible reading, public professing, song service leading politicians? Better look to ability, character and platform.

INTERVIEWING EUROPE

Ex-Governor Cox, of Ohio, is putting his newspaper experience to account during his visit to Europe. A crowd in the Tuilleries garden, according to the Paris correspondent of the Manchester Guardian, was surprised by two well dressed men who were accosting peaceable citizens enjoying the park benches.

One of them, a Frenchman, explained he was the interpreter for the other, who raised his hat, and was introduced as a candidate at the last election for the presidency of the United States who wanted to know what the bench occupants thought of the league of nations. Now came reports from London that almost the first thing the governor did on reaching his hotel was to stop a group of total strangers and, bowing politely, say: "I am an American gentleman who was almost elected president of the United States two years ago. Would you mind giving me your opinion on the league of nations?"

It is to be hoped that the Frenchmen and Britons interviewed were able to give him a more intelligent idea of the league than they obtained from him at our last campaign. A candidate defeated by a seven million majority could scarcely be called "almost elected."

A STRIKING EXAMPLE

The six-days' street car strike in Chicago is a striking example of the folly of allowing industrial disputes to reach that stage. After the men had lost \$700,000 in wages, the public been put to an additional expense of \$2,000,000 finding improvised transportation, and the company and the business of the city subjected to the loss of millions of dollars, negotiations which should have been as possible before the tie-up as at the end of six days, brought about an adjustment accepted by both sides.

We claim to be reasonable beings, but let us ask ourselves if this way of adjusting the everyday relations of employers and employed is anything but childish. All America threw up its hands in horror at the folly of grownup men in Europe resorting to arms to settle disputes that should have been adjusted at a council table. But are we any wiser when it comes to civil controversies at home? There is only one basis for lasting peace between nations or individuals, and that is justice, and it is to be obtained by argument and reason and not by force.

"Ancient Jokes."

"Did a man ever hold stakes," asks the Stenographer Globe, "without making a remark about running away with the money?" And did one of the bettors, following someone's offer to hold the stakes, ever fail to counter with "What'll hold you?"

Seed Sown in Peculiar Manner.

Steppe grass, which grows in Russia, has a curious way of sowing its seed. It forms a coil of fiber which twists on wet days, thus working it way into the ground. When the weather is dry the coil untwists, but remains fixed in position owing to a barbs at the end which the self.

Less Weight When Submerged.

Water has a buoyant effect. Any object weighs less in water than in air. The decreased weight is equal to the weight of the water displaced. When you get a chance, hold a rock under water and notice its heaviness; then lift it above the water and feel its increased weight.

Read The Progress.

Take Care OF YOUR Kidneys

JAMES I. MEASE DIES AT HIS FARM HOME

James Irvin Mease died at his home in Boggs township, Clearfield county, Tuesday evening, Aug. 8, 1922, at 7 30 o'clock, death being due to complications.

The deceased was born Aug. 11 1847, at Williamsport. His parents were John and Mary Mease. On June 29, 1871, he was united in marriage to Miss Hannah Goss, the couple taking up their residence on the farm home along the old Conwensville pike, two miles from West Decatur where they have since resided and where they celebrated their golden wedding anniversary last year.

Besides his wife Mr. Mease is survived by three sons and daughters: Mrs. William Bush and David, William and Leonard Mease. One brother, Dorsey Mease, and one sister Sarah, wife of James Waple, of Clearfield also survive.

Mr. Mease was a successful farmer. He was a member of the grange and esteemed and respected throughout the neighborhood in which he had lived for so many years.

Funeral services, conducted by Rev. Strayer, of Woodland, will be held at room The funeral party will leave the Mease home at 1 o'clock for the church. Burial will be made at Wallington.

A Suggestion.

Miss Campbell had given a colored servant for white, but when a near relative of the family told she was called upon by her old colored maid. "Ah come, Miss Sally," said the maid, "to say dat now dat yo' is in mohnin', yo' might want to take on a black maid, masey, stand o' one o' dem white ones. Ef yo' does Ah's a'll ready."—Judge

Great Public Benefactor.

Ching Noying is reputed to have been a genial teacher of how to make bread from wheat and wine from rice, about 1000 B. C. Baking of bread was known in patriarchal times and, he, was a professor in Rome in 170 B. C.

Which of the Evils?

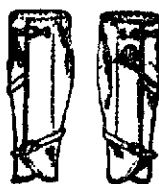

Touch Him—Thanks, sir, for the dime; you see, I've been driven to these circumstances by a woman." Beetle—"Ah did she reject or marry you?"

Truth in Short Sentence.

"Ingratitude," said Uncle Eben, "is what a man complains of when he wants to draw big dividends on a small favor."

"Some men is so suspicious," said Uncle Eben, "dat if a fairy was to come along an' offer to grant 'em three wishes dey'd have de fairy arrested foh bein' a swindler."

Man's Debt to the World.

Idleness never won distinction in the world, and never will. The world does not owe us a living but every man owes the world work. God made man for employment and we cannot dodge the issue. The Road to Recognition.

BRUNSWICK TIRES

Manufactured by
The Brunswick-Balke-
Collender Co.

Now a Tire That is 84% Friction-Proofed!

Friction is the enemy of tire life, for friction generates heat and heat destroys rubber. Every turn of the wheel in gaining road hold causes friction. A touch on the brake multiplies it.

A scientific new method of compounding rubber has decreased friction-caused heat amazingly. The new Brunswick Tires—84% friction-proofed—are revealing astonishing new road endurance and have effected an entirely new conception of tire service.

Brunswick Tires, though offering greatly increased value, cost no more than ordinary tires. A test will convince you.

: News of : Our Neighbors

CURWENSVILLE

Mrs. James Thompson entertained a number of friends Wednesday evening at her home on Thompson street.

Mr. and Mrs. H. S. Williams and daughters of New Bethlehem are visiting Mr. and Mrs. C. E. Dover.

A number of young people attended the dance at Munson Tuesday evening.

At a meeting of the American Legion Tuesday evening Frederick Kitzberger and Frederick Freeman were elected delegates to represent the Joshua Earl Spies Post No. 505 at the State convention to be held at Williamsport, Pa., September 7, 8, and 9.

The Strauss Shoe Company met a number of Curwensville business men at the American Legion rooms Tuesday evening where they obtained subscriptions for stock amounting to \$35,000, leaving \$15,000 to be subscribed.

The Curwensville Chamber of Commerce pilgrimage will leave for Philadelphia at 5:15 p. m. Thursday evening and will have dinner on the Philadelphia roof garden. The Boys' band will lead the caravan.

Paul Smith of Clearfield visited Mr. Kelly yesterday.

Miss Martha Nolt of DuBois is visiting Miss Bessie Clark at her home on Thompson street.

The Sunday School Fold-Dax Chorus Tuesday evening Aug. 8 was a very busy and interesting time at the M. E. church, Curwensville when the executive committee was in session. Matters relating to fold-dax to be held at Curwensville August 24 were rapidly formulated and the

wheels put in motion to make the day one long to be remembered.

At 8:30 the singers commenced to assemble for the large chorus, which soon numbered 100. Professor Thayer of the Susquehanna College of Music, Clearfield, not being able to be present on account of other engagements had secured the services of Prof. O. W. Shaffer, who took charge as chorister, and slowly but surely, the foundation for the great chorus was laid, and the joyful crowd of songsters was soon interested in the development of melodies that were real entertaining to the spectators present.

Now that we have such an auspicious start for the great chorus for that day, every one who enjoys singing should be on hand next Tuesday evening August 14, at 7:30 for a complete rehearsal. Professor Shaffer will have special music ready for this occasion, and everyone who sings throughout the district should be present and give their assistance in bringing the number of the voices for this great chorus up to at least 200.

Remember that only a few more rehearsals can be held prior to August 24, and that it is very essential that all the singers as far as possible should be present at the meeting August 15th.

Let us co-operate and have a good time, as we advance the interest and work which the Master has entrusted to our care, so that our efforts may not be in vain, and that the work of the Kingdom may be moved forward as a result of this field-day August 24.

The Heroism Test

To stand with a smile upon your face, against a stake from which you cannot get away—that, no doubt, is heroic. But the true hero is resignation. To stand unchained with a perfect liberty to go away held only by the higher claims of duty and let the fires creep up to the heart—that is heroism.—F. W. Robertson

Danger in "Stuffy Rooms."

The most important effects of "bad air" are due to its high temperature and the ill effects of even a slightly elevated room temperature, such as 75, are regarded sufficiently clear to warrant warnings against overheating.

An Inviting Retort.

"Some men can appreciate single blessedness," Rose.—And some are not satisfied until they are doubly blessed.

Powerful Argument

Agent—the best thing for you is a life insurance. Just think of the heap of money you will get when you are dead.

French Invented Keyless Watch.

The first keyless watch is said to have been made by a Frenchman in the year 1734.

Peace.

Nothing can bring you peace but yourself, nothing but the triumph of principles.—Emerson

Crazed by Happiness.

Happy Father (rushing into room in the first transports of delight)—"I've got a son! It's a boy!"—London Opinion.

Texas "Midway City."

San Antonio, Texas, is nearest "midway" on the southern route from New York to San Francisco. It is 1,043 miles from New York city and 1,011 miles from San Francisco.

Worse Than Poison Ivy.

The most dangerous vegetable first fast poison is that of the tobacco tree of the Fiji Islands. One drop of the sap falling on the hand is as painful as a touch of a hot iron.

Chivalry.

The age of chivalry is never past so long as there is a wrong left unredressed on earth, or a man or a woman left to say "I will redress that wrong or spend my life in the attempt."—Charles Kingsley

Portuguese Named Japan.

The English name Japan seems to have originated with the Portuguese, who spelled the Chinese Yih-poo Japan, the letter J being silent or similar to H according to their language. This is the way the Spanish and the Portuguese still pronounce Japan.

Happiness a Duty.

No one has any more right to go about unhappy than he has to go about ill bred. He owes it to himself and to the community in general, to live up to his best spiritual possibilities, not only now and then, but every day and every hour.—Lillian Whiting.

First Tithe on Record.

Payment of the tithe was first recorded in the offering of Abraham Melchisedec.

Where to Store Coal.

Coal, when stored in a dry, airy place, will burn much better, and with much less waste, than if placed in a close, poorly ventilated cellar.

Caterpillars. Silken Nests.

Nests of silk, about the size of coconuts, are woven by the Anaphe caterpillars, which are found in central Africa.

Odd Name for Secret Society.

The Order of Mules was the name of a secret society organized by farmers in West Virginia and Kentucky, just after the close of the Civil war, to put a stop to horse stealing and other forms of lawlessness.

Philadelphia, Pa., August 10.—The Philadelphia, Pa., market for the manufacture of shoes and undergarments.

Matrimony seems, generally speaking, to be a court proposition. The game by which the man and woman ends by being tied for life.

A good way to get the rats out of a house is to collect some thin slices of shingles, or the ends of the shingles, and place them in every rat hole you can find. The rats will soon move out.

ANOTHER STOP ON A LONG, LONG TRAIL!

YOUR WASHING DONE AS YOU WOULD DO IT

When you send your washing to us, it is handled just as carefully and as conscientiously as you yourself would care for it in your own home.

The clothes are washed in rain-soft water, with pure, neutral soap, rinsed in many more changes of soft water, dried in gentle breezes of warm air, and finished on ironers that conserve clothes life.

Then everything is returned to you as beautifully finished, and as faultlessly ironed as the first day it came from the shops.

You not only enjoy greater convenience—no washing in the house, no drudgery or upset—but at the same time you save money. It costs less to have your clothes done by us than to employ a laundress.

Phone and have us give you the full particulars.

SHERIFF'S SALE

Of Valuable Real Estate
By virtue of a writ of Levari Facias issued out of the Court of Common Pleas of Clearfield County, Pa., and to me directed, there will be exposed to public sale in the Auction Room in the Court House, in the Borough of Clearfield, on
FRIDAY, SEPTEMBER 1, 1922 at 10:30 A. M. the following described property, to wit:
To be sold on a writ of Levari Facias on Friday the 1st day of September, at 10:30 A. M.
All that certain message or parcel of land, situate, lying, and being in the Township of Sandy, County of Clearfield, and State of Pennsylvania, known as the plan of Long Brothers Addition No. 3 to DuBois, Pa., as Lot No. forty-one (41) as per plan of said Addition recorded at Clearfield, Pa. in Miscellaneous Book No. 6, Page 11, and being bounded and described as follows, to wit:
Beginning at a post at the corner formed by the intersection of the northerly side of Simpson Avenue with the westerly side of Wolf Alley; thence north 3° 36' East by line of said Wolf Alley, 100 feet to a post at Badger Alley; thence north 86° 51' West by line of said Badger Alley, 20 feet, more or less, to post at corner of Lot No. forty (40); thence south 3° 36' West by line of said Lot No. 40, one hundred feet, to a post at Simpson Avenue; thence south 86° 51' East by line of said Simpson Avenue 26 feet, more or less, to post at Wolf Alley; the place of beginning.
Subject, however, to any and all reservations as contained in deed dated December 12, 1908, from the Jefferson & Clearfield Coal & Iron Co. to J. A. Marshall and recorded in the office for recording of deeds in Deed Book No. 171, page 556.
Being the same premises which Norman Leeb et al by their deed of even date and not yet recorded but intended to be recorded, granted and conveyed to Mary Shaw one of the mortgagors herein named.
This mortgage is second in a mortgage dated November 7, 1919 and given by Mary Shaw and William Shaw to Esther M. Martin in the sum of Twelve Hundred Dollars, covering above described premises, and the Mortgages herein covenant and agree that if they default in their payments in the said Esther M. Martin mortgage for a period of thirty days the Mortgagees herein shall have the right to immediately foreclose said Mortgage the same as if default had been made herein, or Mortgagees may proceed upon the Bond accompanying this mortgage as if payments were due and payable in advance.
Together with all and singular the buildings ways, water, water courses, rights, liberties, privileges, improvements, hereditaments, and appurtenances whatsoever thereunto belonging and in anywise appertaining; the Reversions and remainders, Rents, Issues, and profits thereof.
To have and to hold the said described hereditaments and premises, hereto do so, with the appurtenances, unto the said Mortgagees, their heirs and assigns, to and for the only proper use and behoof of the said Mortgagees, their heirs and assigns forever.
Having thereon erected a two story frame building, and other out buildings, seized, taken in execution and to be sold as the property of Mary Shaw and William Shaw, Frank Hutton, Guardian ad litem of John Shaw, James Shaw, William Shaw, Jr., Christina Shaw and Donald Lee Shaw and John Huffman, Catherine Huffman.
TERMS OF SALE
The price or sum at which the property shall be struck off must be paid at the time of the sale, or such other arrangements made as will be approved, otherwise the property will be immediately put up and sold again at the risk and expense of the person to whom it was struck off, and who, in case of deficiency or such resale, shall make good the same and in no instance will the deed be presented for confirmation unless the money is actually paid to the Sheriff.

NOTICE TO BIDDERS

Sale of \$27,000 Bigler Township Road Bonds
Notice is hereby given that the Supervisors of the Township of Bigler will on Wednesday, 23rd day of August, 1922, at 10 o'clock A. M. at the office of the Supervisors in the Village of Madena, Pennsylvania receive sealed bids and sell to the highest bidder \$27,000 par value of Bigler Township Road Bonds of issue of 1922.
These bonds are a part of a \$52,000 bond issue assented to by the qualified electors of the Township of Bigler at a special election held in said township on the 20th day of September, A. D. 1921, and this issue of bonds is authorized by resolutions of the Supervisors of said Township unanimously adopted on the 11th day of July, A. D. 1922, said bonds being issued for the purpose of payment of certain obligations for which the Township of Bigler has become liable, in the building and construction of certain portions of roads in the Township of Bigler, and for the payment for right-of-way and damages caused by relocation and construction of roads as particularly set forth in the resolutions aforesaid.
These bonds bear interest at the rate of 5 1/2% per annum, payable semi-annually, to wit, on the 15th days of February and August in each year to maturity; are issued free and clear of all State taxes of the State of Pennsylvania.
The bonds to be sold are 27 of the

HOW TO KEEP YOUR BABY WELL

A Weekly Talk To Mothers Issued Through 'The Babies' Prophylactic Clinic, Henry Phipps Institution, 7th and Lombard Streets.

Superstitions
There are plain, sensible rules for the care of your baby. These are based on scientific health principles made after years of study by children's doctors and research men. They are founded, not on mystery, but on common sense.
A bag of asafetida worn about the baby's neck will not keep germs away. To think that charms and beads ward off disease is nonsense; to believe that letting your baby look in the glass will bring him bad luck is just as absurd.
Let your doctor and your nurse be your advisors. Read books written by specialists on the subject.
Do not listen to friends and neighbors. They mean well, but they are not trained to give expert advice.
When you are worried because you think your baby isn't developing as he should, consult your doctor and carry out his orders.
Do not try first one thing and then another on your baby.
Baby care is a science. Go to those who have made science a profession for sound advice. The best medical attention you can afford is not too good for your baby. It will save you money in the end, and make for the future health and well being of your child.

Friends an Expensive Luxury.
Friends are an expensive luxury; and when a man's whole capital is invested in a calling and a mission in life, he cannot afford to keep them. The costliness of keeping friends does not lie in what one does for them, but in what one, out of consideration for them refrains from doing. This means the crushing of many an intellectual germ.—Letter, Rosen to Brandes, 1870

At an Early Date.
Jud Tunkins says the house problem started when Adam and Eve left the Eden of Eden; also the report that a fruit crop was a failure.—Birmingham Age-Herald.

Occasional Absence is Best.
For people to live happily together, the real secret is that they shall not live too much together.—English Proverb.

LEGAL NOTICE

Notice is hereby given that the Public Service Commission of the Commonwealth of Pennsylvania, under the provisions of the Public Service Law by SOUTH PARADISE TELEPHONE COMPANY for certificate of Public Convenience evidencing the Commission's requisite approval to application for a charter of said intended corporation called "SOUTH PARADISE TELEPHONE COMPANY", the character and object of which is the constructing, owning, maintaining, equipping, installing, operating, acquiring and operating a telephone system or systems to furnish telephone service, and the purpose of owning any interest in telephone line or lines, property, rights, privileges, or franchises, and for the transaction of any business incidental to telephone service, and business: All of the telephone system of the said corporation is to be located within and limited to the territory described as follows: Big Run Borough, Henderson Township, Gaskill Township, the southern portion of McCalmont Township, the northeastern portion of Bell Township, the said Borough and townships being located in Jefferson County, the northern portion of Bank Township, Indiana County, Troutville Borough and the southwestern portion of Brady Township, Clearfield County. The telephone lines of said corporation shall begin at Big Run and extend by various routes throughout the territory above described.
A public hearing upon this application will be held, Wednesday, August 23rd, 1922, in the City-County Building, 7th Floor, Pittsburgh, at 4:00 A. M., daylight saving time, (4:30 A. M., Standard time); when and where all persons in interest may appear and be heard, if they so desire.

HENRY I. WILSON, Solicitor, South Paradise Telephone Company. 8/3 10 ch

Unfortunate in His Friends.
"There are, said the gloomy man, who had just parted with a V to a retreating friend, only two kinds of men: There are those who sometimes get into trouble, and those who sometimes get out. I don't seem to know any of the latter."

Willing to Let Well Enough Alone.
"Ever since day done put mah husband in jail," said comely Sister Maude Waddles, "I's received so much sympathy, from de sistahs and so many compaintants from de brudders dat I's 'bout made up mah mind to leave him stay dar!"

Fast Travelers in Air.
The swallows are very graceful birds and are exceedingly swift fliers. The food on insects which they catch on the wing. There are five native swallows which are common—the cave or cliff, the barn, the bank, the tree swallow and the purple martin.

Great Steel Countries.
The United States of America is by far the greatest steel producing country on earth. Germany comes next, with Great Britain third.

Canada Fosters Agriculture.
The Dominion of Canada appropriates and spends \$5,000,000 annually for the development of agriculture.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo
There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.
Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins.

Christian and Missionary Alliance

Gospel Tent Campaign
Near B. R. & P. Station Clearfield

Beginning Thurs., Aug. 10th, at 7:30 P. M.
Sunday at 2:30 and 7:30 P. M.
Held by the Christian and Missionary Alliance.

Rev. Guy Gooderham of Clymer, Pa., will be the Evangelist for the first part of the campaign, assisted by Rev. Salvie.

Other speakers will be announced later. The Fullness of Christ will be preached. All the sinners and sick people are specially invited.

All Welcome.

FRANCIS RESIGNS FROM HIS PENITENTIARY POST

John Francis has resigned as warden of the state penitentiary for the Western district of Pennsylvania. Hereafter he will give his undivided attention to supervising the construction of the new state penitentiary in course of erection at Rockview, Centre county.

Mr. Francis' resignation was tendered yesterday at a special meeting of the board of inspectors of the institution, when John M. Egan, clerk-parole officer of the penitentiary, was elected warden.

First Plant Life Probably Aquatic.
As all animal life is dependent directly or indirectly upon plant life, it follows that the earliest life on earth must have been plant life. As at that time there was little or no land, the earliest plant life was probably aquatic.

No Flirting in Korea.
Flirting is unknown among Korean girls. Indeed, an unmarried girl in Korea is so disgraced by even speaking to a male not of her own family that she often kills herself rather than endure the shame.

And Often Does.
Gossip can take an inch of fact and stretch it into a yard of scandal.—Boston Transcript.

Hoggson Brothers Are Equipped To Turn Out A First Class Building

The Clearfield Trust Company has started to modernize its building and remodel and enlarge its banking room into thoroughly efficient up-to-date quarters.

In order to provide additional space for its present needs and make allowances for future expansion, the Clearfield Trust Company decided that by skillful alterations, the present quarters would be enlarged and rearranged so as to obviate the necessity of a new building.

Hoggson Brothers, were consulted and plans submitted showing what could be done. The contract was concluded with this concern and the work of remodeling will go forward rapidly. Hoggson Brothers undertake to carry out a complete building operation and possess an organization which includes architects, engineers and builders. They furnish the architectural services, construct the building, decorate and furnish it and deliver it ready for occupancy. To have an entire building operation in the hands of one large organization, responsible for all the work, for the building as a whole, relieves the owner of most of the worries and annoyances, which so often attend a building enterprise, carried out in the ordinary way.

In conducting a building operation, Hoggson Brothers, for the time being at least, become a local concern and it is their policy to give every preference to local contractors, material dealers, supply people and local labor.

Fine Medieval Buildings.
There are many remains of Roman buildings in different parts of Europe. Their bricks are much smaller than ours, more like the modern tiles in shape. The workers in England called them (we have all heard of Wat Tyler) were probably brickmakers. Two fine examples of brick architecture in the England of medieval days are Hampton Court and Lambeth Palace, London.

Exception Noted.
Knowledge isn't always power. A man may know that he has run out of gasoline and still be unable to make his car go.

Masculine Luxury.
A man's idea of luxury is being able to always buy new socks and throw away the old ones—not to save his wife's earning, but so he can wear hose that is hot full of holes.—Cincinnati Enquirer.

Powdered Heroine.
From a Story—"A smile crept over her face." Probably the smile realized that if it went any faster it would kick up too much dust.

Why Not.
Well, if a cup is the same as a mug and that is the same as a face, my girl has one of the prettiest looking pups you ever saw.—Rehoboth Sunday Herald.

Taking no chances with medicines. The world's best makers supply our drugs and drugs products. Intimate knowledge, long experience, exact care complete the process of prescriptions of quality and character and on which you "take no chances." Bring your Prescriptions here.

Hubby Couldn't Lie.
"Does your husband ever lie to you?" "Never." "How do you know?" "He tells me that I do not look a day older than I did when he married me, and if he doesn't he about that I don't think he would about less important matters."

Ravages of the Gypsy Moth.
The gypsy moth was introduced in this country at Medford, Mass., in 1899 in connection with some experiments in hybridizing silkworms. A few specimens escaped, and about 20 years later the insect had become a serious pest. Between 1890 and 1908 the state of Massachusetts spent about \$1,000,000 in combating the insect which became scarce temporarily, but speedily resumed its depredations when the campaign against it was discontinued.

TRACK SPIKES
With the steel mills shutting down for lack of coal we are fortunate in having on hand several hundred kegs of spikes. After you use the spikes you still have the kegs for any purpose you require. Let us have your inquiries.

Gossip For Tonight's Tea Table

The fall election campaign is about to open in Clearfield county. M. O. Skinner, DuBois "captain of politics," made his opening trip to the county seat today.

A. F. Martin, one of Clearfield's old-time business men, but who has been located in Pittsburgh for a number of years, is the guest of his brother, John H. Martin, at present.

Mrs. A. J. Gulich of Nichols street left today for Aspinwall where she will visit her daughter, Mrs. Henry Highfield, for some time.

Secret of Good Memory.
The secret of good memory is attention, and attention to a subject depends upon our interest in it. We rarely forget that which has made a deep impression on our minds—Tryon Edwards.

Superlative Unionism.
Steam Roller Driver (to gentleman who has slipped on a banana skin)—"Glt up, guv'nor! Glt up! If I pressed your trousers I'd ave the Amalgamated Society of Trousers Pressers writin' a nasty letter to my union."—Windsor Magazine (London).

In Case of Fire.
Do not pull down the draperies that are on fire and thus spread the flames. Remove all objects nearby and with a wet broom smother the burning pieces as they fall.

Knowledge Possessed by Few.
There seems to be no part of knowledge in fewer hands than that of discerning when to have done.—Swift.

First Known Use of Soap.
The first mention of the use of soap was by Pliny as being made from goat's tallow and heech tree ashes.

Love of Music Deeply Rooted.
Mystic, deep as the world's center are the roots a man has struck into his native soil; no tree that grows is rooted so.—Carlyle

Asked To Kill Chicken, Girl Kills Herself Rather Than Harm The Birds

I hit, Mich., Aug. 9.—Edna Fanshild has a tender heart. Her mother asked her to kill some baby chickens that had been injured in a storm. The girl started for the coop and then turned suddenly and ran screaming to the house. "I would rather take my own life than to kill little baby chickens," she cried. Her nine year old sister ran after her to the bathroom and managed to knock a bottle of poison out of her hand after she had swallowed half of it. She has a chance to recover.

The Meancest Man.
The fellow who refused to give a blind man a kick out of a burning building.

Cultivate Patience.
Patience is the ballast of the soul that will keep it from rolling and tumbling in the greatest storms.—Bishop Hopkins.

Women Chief Retail Buyers.
It is estimated that two-thirds of the retail buying in the United States is done by women.

X-Rays on Microscope.
A microscope using X-rays has been perfected by a French scientist.

Catch A Cold With The Change?

This storm period and the chill wave that followed is going to bring a lot of colds. Bring us that cold and we'll show you how to knock the spots out of it in a short time with our cold remedy.

This remedy is a conservative worker but does its work thoroughly.

CLEVELAND'S STRIKE PARLEY TO OPEN LATE TODAY

**LEWIS GIVES UP HOPE OF GETTING
MORE OPERATORS TO ATTEND MEETING
AND DECIDES TO "BUCK 'ER THROUGH"**

**Miners' Leader Seems Determined That An
Agreement Shall Be Made Which Will Be
Considered National In Scope And Effect**

TONNAGE REPRESENTED IS UNKNOWN

CLEVELAND, Ohio, August 10.—The peace parley between leaders of the striking miners and the coal operators of the central competitive district is to be opened here late today.

President John L. Lewis, chief of the miners, will no longer wait for the operators of Indiana, Illinois and Western Pennsylvania to come into the conference. The decision to go forward with the conference, however, was looked upon as indicative that the insurgents would either join the conference later or abide by its decisions, for Lewis was determined that the settlement would be final and national.

Powerful organizations of coal operators in four districts threatened to become disrupted over the wage scale adjustment.

It became apparent today that neither miners nor operators at the conference knew how much tonnage is represented. Estimates vary between 50,000,000 and 100,000,000 tons, however. Refusal of the Illinois operators to attend was a setback. Announcement had been made that one Illinois district with a tonnage of 6,000,000 tons would have representatives here.

The policy committee of the United Mine Workers met at 10:00 A. M. today to discuss the situation in Western Pennsylvania.

Cleveland, O., Aug. 10.—For a second time the joint inter-state conference of miners and operators delayed action yesterday to permit the holdouts to decide whether they would participate in negotiations to end the soft coal strike. Adjournment was taken until today.

As a forerunner to the conference session today, the union committee will meet this morning to pass finally on the question of a prospective settlement which would affect most Ohio mines, as also scattered ones in Pennsylvania, Indiana and Illinois.

These four states form the central competitive field.

The committee also expects to consider extension of the central field to other parts of Pennsylvania and West Virginia.

The new arrivals among the operators included Thomas H. Watkins, owner of several big mines in Central Pennsylvania, and Harry Olmstead, a representative of Williamson county, West Virginia, operators. Both of these operators said they were here only as observers.

PRETTY HOME WEDDING IN EAST END

At the home of her parents, Mr. and Mrs. W. E. Davis on Eleventh street, Miss Orrell Lenore Davis was united in marriage to Mr. Reginald Stevens of Woodland. The ceremony was performed at 6 o'clock Tuesday evening, August 8, 1922, by Rev. Oliver S. Hartman of Emmanuel Reformed church, York, Pa., who is a cousin of the bride. The bride was attired in tan silk canton crepe and carried roses. Miss Salome Davis, sister of the bride, and Charles Palmer of Woodland were the attendants. The wedding march was played by Mrs. Kathryn Palmer.

At the conclusion of the ceremony a wedding supper was served to the guests. Mr. and Mrs. Stevens, accompanied by Mr. and Mrs. Charles Palmer, of Woodland, left Wednesday morning for an auto trip through the New England States. They will also visit relatives in York, Gettysburg and Philadelphia before their home.

WILLIAM Z. FOSTER, BREEDER OF TROUBLES, LEAVES DENVER QUICKLY

Denver, Aug. 10.—Forceful ejection from Colorado by State Rangers yesterday of William Z. Foster, leader of the steel strike three years ago, and nationally known labor organizer, was "for the best interests of the state" and "no law was consulted," Adj. Gen. Hamrock said today.

Foster, who was characterized as a "dangerous radical" by the adjutant general, was taken from a hotel after his arrival from Salt Lake City, placed in an automobile and escorted to the Kansas state line, Hamrock announced. Previously it had been

reported he was placed on a train here. Foster told the rangers his mission here was "legitimate," but he offered no physical resistance.

A grip Foster carried and said by Hamrock to contain radical literature was seized and its contents confiscated. Foster, who is alleged to be the president of the society, "Friends of Soviet Russia," was denounced by the adjutant general, who said, "we have characterized him as an undesirable in Colorado and we so decided to have him kept right on going without any stop in Denver."

Cherry Tree Claims The First Flapper; Evidence Sure Enough To Convict

Cherry Tree knocked at the door of Pennsylvania's Hall of Fame for other historical recognition when the city fathers laid claim to its having developed the first "flapper". Forty two years ago the following item appeared in the Indiana Messenger, under Cherry Tree happenings:

"Three of Cherry Tree's lumps of sweetest sweetness recently concluded it would be just too awfully smart to play a joke on a man by one of them taking off her hoops and hanging them on his gate. The hoops were so dirty, however, that he didn't tinkle to the joke thinking some old cow had got them on for horns in an alley and left them on the gate. Don't be so 'fresh' next time."

LEADERS OF BOTH HOUSES TALK TO PRESIDENT TODAY ON TWIN STRIKES

Washington, D. C., Aug. 10.—President Harding will confer today with Republican congressional leaders to determine just what Congress will do if its members return next Tuesday to aid in meeting the critical strike situation. At present it appears that Congress can aid in only two ways.

First.—By conducting an investigation into the strikes that will place the issues squarely before the public.

Second.—Provide legislation incident to seizure of the railroads or both.

The opinion is freely expressed at the Capitol that it would not bring an end to the controversy to pass anti-strike legislation at this time or put teeth in the Railroad Transportation Act as a penalty for refusal to obey the decisions of the Railroad Labor Board. Anti-strike legislation could not be passed without a bitter and long fight in both houses. Measures to strengthen the transportation act would be of little value, some members hold, because legal proceedings could block for months the putting into effect of any decision that either party to the dispute did not approve.

Ben W. Hooper, chairman of the Railroad Labor Board, arrived here (Continued on Page 7).

Sally Coburn (left) and Lorna Whitlesey were posing for their photo at the horse show at Stamford, Conn., when "Jingle Bell," the jealous thing, poked his head right into the picture.

Just Us Three

STONE BACKS UP JOLIET RAILROAD MEN WHO QUIT JOB

Cleveland, Aug. 10.—Railroad Brotherhood chiefs here yesterday served notice that their members might decide for themselves whether objectionable working conditions at railroad terminals in connection with the strike justify their remaining away from their jobs.

"We are not going to have our men shot up, beaten or threatened at railroad shops or yards," Warren S. Stone, president of the Brotherhood of Locomotive Engineers, said when told that several hundred members of the Big Four had gone out at Joliet, Illinois.

"When the men cannot go to work without having irresponsible armed guard men approach them they may go home and stay there until the condition is removed," he said.

The three brotherhoods with headquarters here have telegraphed representatives at Joliet backing up the refusal of 1,300 engineers, trainmen and workers of the Elgin, Joliet and Eastern to return to work while state troops were on guard.

Miss Mary Greff, who is visiting Mrs. D. B. McCarty of Nichols street, leaves Friday morning for Wellsville and Hornell, N. Y., to visit friends, before returning to her home in Pittsburg.

GAS MASKS IN BIG DEMAND ON UPPER END OF SECOND ST.

Ralph Gulich, Jim Gray Alex Hynd, Doc Reichhold and a lot of other fellows living up along the river are out gunning for a reckless auto driver who caused more than a commotion in their peaceful community last evening, when he, knowingly or unknowingly, guided his car across the back of a big fat pole cat.

Gulich says he was raised on a river bottom farm and has had considerable experience with the lowly skunk, and while he never could find out where they got the "perfume" they are so generous with at times, he now knows how they get it. The animal killed near his place last evening had been to the source of supply and was carrying back with him enough of the powerful fluid to supply every pole kitty in upper Lawrence township. He sniffed it all when the car hit him, hence the wrath of the citizenry around and about for blocks in every direction.

Purchased Irvin Timber Tract Containing Near Half A Million Feet

A. M. Stine, the local lumberman, closed the deal on Monday last, where by he became the owner of a tract of timber, part of which is located in Curwensville Borough, which contains nearly five hundred thousand feet of saw timber.

The purchase was made from Hugh M. and Elizabeth Irvin, the timber lands being a part of the Col. E. A. Irvin Estate. Mr. Stine is arranging to move his mill to Curwensville and will begin the work of cutting the timber at once.

Prominent Druggist Of Punxsutawney Dies In Bed Of Bad Heart

Charles M. Feicht, a leading druggist of Punxsutawney and one of its finest citizens died at his home on East Mahoning Street yesterday morning at a little after 7 o'clock. Death was due to acute dilation of the heart. Mr. Feicht would have been 47 years of age the 5th of September.

Tuesday the deceased was in his usual state of health and when he retired there was apparently nothing wrong with him. In the morning, at a little after 7 o'clock while in bed, Mrs. Feicht heard him gasp and tried to awaken him. Failing she called a physician who pronounced him dead.

COMMUNITY SERVICE DOING HERE JUST WHAT THE NAME IMPLIES

**Report For Month of July Shows Excellent Work
Being Done By This Organization With a View
To Making Neighbors Of All Our People**

EVERY BRANCH OF WORK IS A SUCCESS

The report of Clearfield's Community Service for July, recently issued, shows a highly satisfactory state of affairs. The most satisfying feature of the report is the fact that more than one thousand—1,007 to be exact—agreed to contribute \$5,361.50 for the purpose of providing innocent amusements and healthy recreation for young America in Clearfield.

Playground Activities.
Playgrounds are being maintained in the different wards, while a great deal of interest is being stimulated in baseball, horse shoe pitching, volleyball and other sports, while the wee folks, too small to engage in such games are entertained and provided for on the playgrounds where healthful exercises or games are carried on and story telling to the little folks engaged in three times per week.

Twilight League Baseball.
The Twilight League has three divisions known as the general or industrial section, which is made up of representatives of the Red Hat, Gearhart's Knitting Machine Factory, Reedsville, I. O. O. F., Hillside and K. of C. The Sunday School branch is divided into the Senior and Junior divisions. The Senior division embraces the C. I. C. and Brotherhood of the West Side Methodist church, the Presbyterian and Lutheran teams, while the Sunday School Juniors are representatives of St. Francis and West Side M. E.

The record for the month follows:
No. of games 28
Players in each game 20
Attendance 2100
The baseball league was organized about May 15th under the direction of Prof. Clair Ross.

Volley Ball.
Volley ball activities are confined largely to No. 1 and No. 2 Fire Companies, with No. 3 looking in on one

game. There were five volleyball games during the month, in each of which 12 players participated, with an average attendance of 125 spectators.

Playground Work.
Playgrounds are located at corner of Reed and Fourth streets for First ward, Wither Park for upper First and Second wards and at Reedsville, also for Second Ward; the Driving Park for Third ward and Murray's woods for Fourth ward. A very great deal of interest is being taken by the children in these recreation grounds. The attendance during the first three weeks of the month reached 3,782. While for the last week it jumped to 2,119 or a total of almost 6,000 children for the month.

In addition to the regular daily recreational attendance, community parties were held in the Second, Third and Fourth wards, which brought out an average of 330 people to each or 1,000 for the three parts.

Story telling parties for the little folks were held at all the playgrounds three times each week, amounting to 40 individual hours. This feature was in charge of Miss Isabel Powell. Play leaders' parties were also held, totaling 40 hours, while 5 play leaders were awarded certificates for 24 hours' duty on the playgrounds. This activity was carried on under the direction of Mrs. Philip B. Reed.

General Activity.
The local interest and voluntary labor was more or less sporadic, as is the case with all new departures in Clearfield. An agitation for an organization of Girl Scouts has been started and will be worked out to a successful conclusion and those in charge of Community Service are to be congratulated upon the fine showing made during the past month.

Maryland's Best Cow

This Holstein cow on the government farm at Beltsville, Md., produced 25,000 pints of milk last year. It takes those 21 cans to hold her supply of milk for one month, 2627 pounds.

TWELVE PERFECTLY NICE GIRLS GO IN BATHING IN CREPE PAPER SUITS

New York, Aug. 10.—Twelve good-thicker than ever, looking young women wearing crepe. The 12—who, by the way were em-paper bathing suits appeared yesterday on the beach at Wild-tripped gaily to the water's edge, paused there an instant and then de-

By jumping up and down on the liberally walked into the water. The outskirts of the crowd it was possible to stand with eyes popping out, to catch a glimpse of them now and wondering how soon it would begin then. But those who got there early to bluish.

And were in the center of the throng. But into the surf the girls went, said the young women looked quite ankle high, knee high, waist high, charming, and then completely under. The "Do you suppose they're going in beach through water for them to re- with those flimsy things on?" was the answer. One of them came up, then a- whisper that pulsed through the as- other. There was a catch in it. Indeed they were and they did. The is had on woolen suits under. The surrounding mob separated just the paper. a little to give the 12 room to pass. Even as the paper melted away, so toward the surf, and then closed in the crowd.

Champion of Vet Hikers

Tom Harnoy, of Worcester, Mass., and his dog, Gurlo, hiked all the way to Seattle, Wash., to attend the annual convention of the Veterans of Foreign Wars to be held Aug. 14-15.

Cleaning Hint.
When the cleaning house sprinthe the clothes with a little water in which a good deal of soap has been steeped and then spin it with a little spin of the spinners, the latter destroys the odor of the former and neither they will present a disagreeable odor.

First Use of Khaki Army.
When khaki was first used for the British Army it was found that the heavy dark blue uniform was too warm for service in the tropics. A service uniform of khaki cloth was therefore introduced. In 1902 the whole dress regulation of the army was changed.

Nurse Gain in Wealth.
"Nurses" do the girls up the stairs and down the stairs and become rich with the regular life," says the nurse of one of the large city hospitals.

Friendship.
Friendship is the place of everything that is good. It makes your property happy and it makes you a happy person. Selected

Feed on Dead Animals.
In the plantless world, the animals largely depend on the food supply upon the carcasses of dead animals which sink through the muds of dark, cold water.

SAFE MILK IS A SURE MILK
That sounds like an Irish Bull but it's a cold, hard fact. Call our milk safe because we know it is. It is perfect, safe to feed to any infant, modified of course to meet some conditions. But safe from a standpoint of being absolutely pure. And it's a sure milk for we're sure that you may be sure in the results that it will produce in the way of brawn and muscle building. Just look at the kiddies whose mothers say, "This is a bottle fed baby and we get our milk from the local dairy company." Every one is as husky and strong as most of the babies fed in the natural way. Their little bodies are round and plump, their muscles are strong and vigorous, the mental condition is at or above normal for their age.

Tom Sims SAYS---

The tariff on California nuts has nothing to do with Hollywood.

Austrian crown is missing. It was about gone anyway.

Summer dresses haven't as many hooks but have more eyes on them.

The cost of living is the same—all you make.

A wise man never kicks a stick of dynamite or his wife's cat.

"There are too many stocking banks" says Edison, who may have been watching a crowd board a street car.

Senate wants a low tariff on gloves. They are used in handling voters.

No man's ship comes in unless his ship goes out.

"Easy come, easy go" doesn't apply to a wart.

Most of these men who long for the good old days would hate to go to bed at six o'clock.

Albania is looking for a king. There are lots of them out of work.

Every time we think of Congress, we feel for our money.

Little boys who won't tell the truth are likely to become fishermen or golfers or politicians.

There is always a bright side. If the trains stop vacationists can't come back home.

Richest girl in England has married, but any girl with money to burn can find a match.

Mother's Wonderful Love.
The mystery of a mother's love, the sensitiveness of her sympathy, the vastness of vision of her intuition the sublimity of her self sacrifice can never be surpassed—Alexander Lyons.

The Peacemaker.
English magistrate (to a man who continued to fight after a policeman appeared)—"When the policeman comes, the fight is over. He is a peacemaker. It does not matter who is ahead on points. It is a draw from that moment."

First Christian King of Europe.
Lucius, a legendary king of Britain, is, by a Vatican manuscript, accorded the honor of being the first Christian king in Europe. Profane historians have failed to locate him. He asked Pope Eleutherius in 182 A. D. to baptize him. This was done and he went on a proselyting tour in France which ended in martyrdom.

Financial Outlook.
"Why do you object to children in the houses which you have to let?" "As a matter of kindness. People who are raising families can't be expected to pay the rent I require."

Menus of the Nations.
Ireland's national food is the potato. The Hindu's national food is rice. The national food of Germany is pork. The French are the greatest vegetable eaters. Italians like oil-fish. Russia's national food is ry. America has no national food.

Speed of the Stars.
The velocity of a star seems to be a factor of its effective age. Unlike our ordinary human experience, the speed of a star increases with its advancing years, and in the whirl of spheres above us it is the young who cannot keep the pace.

Brooks Fletcher Best Chautauqua Lecturer Ever Heard In City

Wednesday's session of the Chautauqua was the best that has ever been presented of the fine list of the Swarthmore Company entertainments. In the afternoon the program was exceptionally strong and in the evening the Russian Cathedral Quartet and Brooks Fletcher made an impression on Chautauqua goers that will last for years.

Brooks Fletcher, the Marion Editor made the strongest appeal of any lecturer that has ever visited Punxsutawney. He has a message and can deliver it. He holds the grown people and children forget where they are. His message in this world is to put children on the right track when they are young and impressionable and hold on there. He can tell a story in a manner that will make his audience forget anyone exists but the lecturer and he can make the audience jump, or nervous, just as he wishes. It is the consensus of opinion here that Brooks Fletcher is the best there.

Ford's Plan To Run Kentucky Rail Shops Rejected By Workers

Frankfort, Ky., Aug. 9.—Governor Morrow today advised E. G. Leibold, Henry Ford's Secretary at Detroit, that conditions at Corbin are such that the Ford plan of operating the shops of the Louisville & Nashville railroad and the Eastern Kentucky coal carrying lines is "theroughly impractical." The Governor's telegram follows: "Find shopmen and other railroad employees at Corbin would not accept of work under offer as made by the Ford railroad. I am confident the proposition cannot be worked out at either end of the working lines and therefore is impractical."

Gave Name to Great Invention.
Bunsen burner was invented by Robert Wilhelm Bunsen (1811-1892), born in Göttingen, Germany, for almost 50 years a great teacher and investigator in Heidelberg university.

Elephant On Rampage IN HARRISBURG YARDS

Harrisburg, Aug. 9.—Hundreds of people who lined the streets this morning waiting for a circus parade were startled at seeing a charging elephant on his way back to the railroad yards. The elephant apparently was on strike and wanted the sympathy of the onlookers. He jumped two fences, tore up a beet garden on his rampage and hoisted a couple eight-ton trucks in his free demonstration before he was finally corralled between two freight trains in the yards. Not satisfied with this, he broke his keeper's ribs on the way back to the circus grounds. He is said to be the second largest elephant in captivity, over twelve feet in height and tipping the scales at ten tons.

ODDS AND ENDS AND THINGS

By J. D. C.

What's the matter with Clearfield? We haven't heard of a boy baby being born hereabouts for a month of Sundays. It's girls! girls! girls!—everything girls! They say an excess of boy babies presage war two decades hence and if that be true we need have no fear of wars in 1942.

The results of the first straw vote ever taken in Germany on the Prohibition question showed an overwhelming majority today in favor of Prohibition as prescribed in the United States.

This balloting was conducted in the first police precinct of Bielefeld, and of 14,069 qualified voters, 12,626 voted for prohibition, 416 against and 1,022 declined to vote. Five others were unaccounted for. The test was organized by the newly appointed campaign committee for the German prohibition movement, which plans to take similar votes in other parts of the country.

We don't like to discourage a lot of amateur painters, but we must say that the latest word from New York's "40s" is that women of that ultra-feminine set have ceased to paint and are using powder very sparingly when they use it at all. Consequently it is no longer fashionable or the proper thing to use rouge.

In a little while we may expect to see a decreasing number of female-whose faces present two deep red spots, one on either cheek, with chalk white nose and chin, resembling nothing quite so much as the face of a monkey.

If our painter lady friends don't feel like dropping the brush and paint box right off the reel they might direct their talents in the direction of beautifying the family rain barrel.

Immigration Commissioner Husband's report as to the working of the restrictive immigration law during the first nine months ending on March 31 showed that the total of arrivals (524,478), exceeded the total of departures (488,638) by only 35,840. Immigration movement from Southern to Eastern Europe is offset by the homeward movement. The Italians admitted during this period numbered 39,181. But those who returned to the Old World in the same period numbered 42,371. The Polish quota as fixed by law for the period under consideration was 27,108 and 25,800 were landed. But the newcomers were more than offset by departures, for the records show that 27,895 Poles returned to their homeland.

During the same period 19,301 French arrived and 6349 returned; 21,409 Germans came and 3798 went; 9789 Scandinavians immigrated and 2888 emigrated, so that the Anglo-Saxon strain is not being overwhelmed as one hears.

Census figures from ten States and the District of Columbia indicate that the general expectation of life in the United States has increased 3.75 years for men and 2.71 for women in the last ten years. It is now 53.98 years for men and 50.33 for women.

The States are the six in New England, and New York, New Jersey, Indiana and Michigan. Kansas leads with 55.78 years for men and 50.89 for women. There are no ten-year comparison figures for Kansas.

Of the fourteen largest cities in

the country Washington has the highest expectation, 53.83 for men and 50.83 for women. Pittsburgh is lowest, with 47.15 for men and 50.42 for women.

The other day in talking with a rural citizen and an old-time school director of his township, the ancient one was seeing things thru very dark blue spectacles and wondering what was going to become of us all. He took a rap at the recent legislation boosting school teachers' salaries and said, "why right in my township now young girls just out of school start in at \$70 per month, when I remember when M. R. Ogden from your own town and other old teachers taught school in our township for \$35 per month and they paid their board out of it, too." He continued, "the trouble with the State Educational Department now is that they are trying to do away with the rural schools by trying to drag the pupils into the town or central high schools."

In this connection an extract from a recent address of State Supt. of Public Instruction Finegan might be out of place. In addressing the teacher students of the summer school branch of the Indiana Normal school at Altoona last Saturday Dr. Finegan made a plea for fair play for the students who are forced to attend the rural schools.

Dr. Finegan was very emphatic in his denial of ever having intended to wipe out the country school. He declared that such was not his wish even if it were within his power to do so, but he did desire to present an equal opportunity to the children of the rural districts and those of the city schools. He stated that the greatest fundamental factor in the schools is the teacher and those of the rural districts should be encouraged to carry on their vocation of the city.

Dr. Finegan declared that the country schools have made poor progress and therefore the boys and girls of the rural sections labor under a handicap. He stated that good schools are greatest asset of the commonwealth and it gave him much pleasure to see that a group of young folks were willing to spend their summer vacation in preparing themselves to handle the great work of educating the American of the future.

He stated that the normal schools of the state are overflowing with students and before many years Pennsylvania will have so many trained teachers that she will have no place for many of them. It is the plan of the department of public instruction to measure up to certain requirements before September 1, 1927.

"That will be a great day when the millions of pupils in the public schools of Pennsylvania are met at the door by a trained teacher. We must beat the other states to it. It will be the nation's greatest investment," said Dr. Finegan.

Speaking of the finances of the state schools, Dr. Finegan declared that Pennsylvania pays but 15 per cent while some states pay much more, notably New Jersey, where 43 per cent of the cost of education is borne by the state. He declared that he wants people to write to him and talk over their differences. He will appreciate any suggestions and if he can be shown where he is wrong in his policies will be glad to admit it. "It would be a better plan than fussing about the matter around the country store or in the Grange meeting," said Dr. Finegan.

WHY? IS THERE "SILK" ON AN EAR OF CORN

THE substance which we term "silk" on an ear of corn before it has been husked and cleaned is really the father of the corn itself, because each little grain on the ear has received sustenance has been "fertilized" and enabled to reach its full growth—by means of the threads of silk-like construction.

Each ear of corn is composed of three principal parts: The grains which grow on a cob, the silk and the husk. The function of the latter is merely of a protective nature. It keeps the driving rain and the burning sun from damaging the tender kernels or grains, which are the seeds of the plant. But each one of these grains must receive its supply of pollen-powder if it is to develop into a large, juicy, tempting morsel or if it is to grow into a fully developed seed which, in turn, will produce another stalk of corn. This pollen it gets from the silk-like threads which appear even before the grains themselves are well differentiated, while they are almost indistinguishable marks or ridges upon the cob. But even then it is possible to tell just how many grains of corn will appear upon the full-grown ear. To do this it is necessary only to count the strands of "silk" for each one of these fortifies a grain and assists in bringing it to maturity.

Agricultural Certainty.
"Is there any sure way for a farmer to be prosperous?"
"Well," replied Farmer Cornin, "there's an element of luck in everything. The only sure way for a farmer to be prosperous is to do over and over well."—Washington Evening Star

Italy's City of Flowers.
Florence, Italy, is known as the city of flowers. The famous ornamental plants which are produced from the soil of the city are the large purple iris or iris which is grown extensively throughout the surrounding districts.

Acid-Proof Corks.
Corks steeped in vasoline are a fine substitute for glass stoppers. Neither acids nor anything else will affect them, and even chemical fumes do not eat them.

YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound Led Her To Try It

Keshosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to get a bottle of it and I am sure they will feel as I do about it."—Mrs. J. H. Smith, 662 Symonds St., Keshosha, Wisconsin.

A medicine that has been in use nearly fifty years and has received the praise and commendation of mothers and grandmothers is worth your consideration. If you are suffering from troubles that sometimes follow child-birth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles.

The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

Chalmers' Recipe.
The grand essentials of happiness are something to do, something to love and something to hope for.—Boston Transcript

Lots of People Are Going to Be Disappointed When They Want To Join The Thrift Club

Only Seven More Applications Accepted

Folks have joined the Frederick Thrift Club in greater numbers than was expected—they have seen the advantages that have been offered and have taken them as they are.

The Clearfield Frederick Thrift Club was allotted a certain number of instruments—of the number only seven remain to be placed in the homes of members who recognize the thrift idea behind this great movement to put music in musicless homes and put better instruments in homes where there already was an instrument but were not satisfied with them.

Now, we have given you all the details of the plan in previous issues of this paper—how we take all the risk; how we protect you against fire, sickness, unemployment; how we do everything in our power to make your membership in the FREDERICK THRIFT CLUB just as pleasant and secure as possible.

And FINALLY—WE MAKE YOUR MEMBERSHIP IN THE CLUB LAST AS LONG AS YOU WISH, that is, your dues or payments can be spread out over a period long enough so that you will be enjoying music in your home long, long before your would in case you started to save to pay cash for an instrument.

IT'S FAR BETTER TO BE GLAD YOU
DID THAN TO WISH YOU HAD. SO
DON'T PROCRASTINATE ANOTHER
MINUTE. SIGN THE APPLICATION AND
SEND IT TO THE STORE AT ONCE.

APPLICATION FOR MEMBERSHIP

Date, 192.

Gentlemen:—

Please enter my application for membership in your THRIFT CLUB.

I herewith pay you the membership fee of One Dollar (\$1.00), which, if my application is accepted, will entitle me to a full membership in your Thrift Club, together with all the Club advantages if I select a Thrift Club piano or player-piano at your store after my application is accepted, it being distinctly understood that if my application is rejected or if I decide not to make a selection, the membership fee will be refunded.

The editor of Farm Life says:

"We are not greatly concerned that Miss Alice Robertson, congresswoman from Oklahoma, is a Republican, nor that she has taken a somewhat decided stand upon the bonus question. These are mere incidents. The big thing is that she opened her campaign the other day by reading a selection from the Bible, and announces that she is a Christian and an American and that she never makes any, pre-election promises. That is good enough platform. We can hardly agree with the farmer editor. Have we not been fooled aplenty by Bible reading, public professing, long service leading politicians? Better look to ability, character and platform.

INTERVIEWING EUROPE

Ex-Governor Cox, of Ohio, is putting his newspaper experience to account during his visit to Europe. A crowd in the Tuilleries garden, according to the Paris correspondent of the Manchester Guardian, was surprised by two well dressed men who were accosting peaceable citizens enjoying the park benches.

One of them, a Frenchman, explained he was the interpreter for the other, who raised his hat, and was introduced as a candidate at the last election for the presidency of the United States who wanted to know what the bench occupants thought of the league of nations. Now came reports from London that almost the first thing the governor did on reaching his hotel was to stop a group of total strangers and, bowing politely, say: "I am an American gentleman who was almost elected president of the United States two years ago. Would you mind giving me your opinion on the league of nations?"

It is to be hoped that the Frenchmen and Britons interviewed were able to give him a more intelligent idea of the league than they obtained from him at our last campaign. A candidate defeated by a seven million majority could scarcely be called "almost elected."

A STRIKING EXAMPLE

The six-days' street car strike in Chicago is a striking example of the folly of allowing industrial disputes to reach that stage. After the men had lost \$700,000 in wages, the public been put to an additional expense of \$2,000,000 finding improvised transportation, and the company and the business of the city subjected to the loss of millions of dollars, negotiations which should have been as possible before the tie-up as at the end of six days, brought about an adjustment accepted by both sides.

We claim to be reasonable beings, but let us ask ourselves if this way of adjusting the everyday relations of employers and employed is anything but childish. All America threw up its hands in horror at the folly of grownup men in Europe resorting to arms to settle disputes that should have been adjusted at a council table. But are we any wiser when it comes to civil controversies at home? There is only one basis for lasting peace between nations or individuals, and that is justice, and it is to be obtained by argument and reason and not by force.

"Ancient Jokes."
"Did a man ever hold stakes," asks the Attentive Globe, "without making a remark about running away with the money?" And did one of the bettors, following someone's offer to hold the stakes, ever fail to counter with "What'll hold you?"

Sown in Peculiar Manner.
Sippe grass, which grows in Russia, has a curious way of sowing its seeds. It forms a coil of fiber which twists on wet days, thus working it way into the ground. When the weather is dry the coil untwists, but remains fixed in position owing to a barbs at the end which the soil.

Less Weight When Submerged.
Water has a buoyant effect. Any object weighs less in water than in air. The decreased weight is equal to the weight of the water displaced. When you get a chance, hold a rock under water and notice its heaviness; then lift it above the water and feel its increased weight.

Read The Progress.

Take Care OF YOUR Kidneys

JAMES I. MEASE DIES AT HIS FARM HOME

James Irvin Mease died at his home in Boggs township, Clearfield county, Tuesday evening, Aug. 8, 1922, at 7 30 o'clock, death being due to complications.

The deceased was born Aug. 11 1847, at Williamsport. His parents were John and Mary Mease. On June 29, 1871, he was united in marriage to Miss Hannah Goss, the couple taking up their residence on the farm home along the old Conwensville pike, two miles from West Decatur where they have since resided and where they celebrated their golden wedding anniversary last year.

Besides his wife Mr. Mease is survived by three sons and daughters: Mrs. William Bush and David, William and Leonard Mease. One brother, Dorsey Mease, and one sister Sarah, wife of James Waple, of Clearfield also survive.

Mr. Mease was a successful farmer. He was a member of the grange and esteemed and respected throughout the neighborhood in which he had lived for so many years.

Funeral services, conducted by Rev. Strayer, of Woodland, will be held at room The funeral party will leave the Mease home at 1 o'clock for the church. Burial will be made at Wallington.

A Suggestion.

Miss Campbell had given a colored servant for white, but when a near relative of the family died she was called upon by her old colored maid. "Ah come, Miss Sally," said the maid, "to say dat now dat yo' is in mohnin', yo' might want to take on a black maid, masey, stand o' one o' dem white ones. Ef yo' does Ah's a'll ready."—Judge

Great Public Benefactor.

Ching Nong is reputed to have been a genial teacher of how to make bread from wheat and wine from rice, about 1000 B. C. Baking of bread was known in patriarchal times and, before a profession in Rome in 170 B. C.

Which of the Evils?

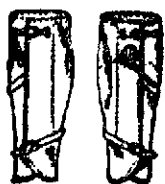

Touch Him—Thanks, sir, for the dime; you see, I've been driven to these circumstances by a woman." Beetle—"Ah did she reject or marry you?"

Truth in Short Sentence.

"Ingratitude," said Uncle Eben, "is what a man complains of when he wants to draw big dividends on a small favor."

BRUNSWICK TIRES

Manufactured by
The Brunswick-Balke-
Collender Co.

Now a Tire That is 84% Friction-Proofed!

Friction is the enemy of tire life, for friction generates heat and heat destroys rubber. Every turn of the wheel in gaining road hold causes friction. A touch on the brake multiplies it.

A scientific new method of compounding rubber has decreased friction-caused heat amazingly. The new Brunswick Tires—84% friction-proofed—are revealing astonishing new road endurance and have effected an entirely new conception of tire service.

Brunswick Tires, though offering greatly increased value, cost no more than ordinary tires. A test will convince you.

: News of : Our Neighbors

CURWENSVILLE

Mrs. James Thompson entertained a number of friends Wednesday evening at her home on Thompson street.

Mr. and Mrs. H. S. Williams and daughters of New Bethlehem are visiting Mr. and Mrs. C. E. Dover.

A number of young people attended the dance at Munson Tuesday evening.

At a meeting of the American Legion Tuesday evening Frederick Kitzberger and Frederick Freeman were elected delegates to represent the Joshua Earl Spies Post No. 505 at the State convention to be held at Williamsport, Pa., September 7, 8, and 9.

The Strauss Shoe Company met a number of Curwensville business men at the American Legion rooms Tuesday evening where they obtained subscriptions for stock amounting to \$35,000, leaving \$15,000 to be subscribed.

The Curwensville Chamber of Commerce pilgrimage will leave for Philadelphia at 5:15 p. m. Thursday evening and will have dinner on the Philadelphia roof garden. The Boys' band will lead the caravan.

Paul Smith of Clearfield visited Mr. Kelly yesterday.

Miss Martha Nolt of DuBois is visiting Miss Bessie Clark at her home on Thompson street.

The Sunday School Fold-Dax Chorus Tuesday evening Aug. 8 was a very busy and interesting time at the M. E. church, Curwensville, when the executive committee was in session. Matters relating to fold-dax to be held at Curwensville August 24 were rapidly formulated and the

wheels put in motion to make the day one long to be remembered.

At 8:30 the singers commenced to assemble for the large chorus, which soon numbered 100. Professor Thayer of the Susquehanna College of Music, Clearfield, not being able to be present on account of other engagements had secured the services of Prof. O. W. Shaffer, who took charge as chorister, and slowly but surely, the foundation for the great chorus was laid, and the joyful crowd of songsters was soon interested in the development of melodies that were real entertaining to the spectators present.

Now that we have such an auspicious start for the great chorus for that day, every one who enjoys singing should be on hand next Tuesday evening August 14, at 7:30 for a complete rehearsal. Professor Shaffer will have special music ready for this occasion, and everyone who sings throughout the district should be present and give their assistance in bringing the number of the voices for this great chorus up to at least 200.

Remember that only a few more rehearsals can be held prior to August 24, and that it is very essential that all the singers as far as possible should be present at the meeting August 15th.

Let us co-operate and have a good time, as we advance the interest and work which the Master has entrusted to our care, so that our efforts may not be in vain, and that the work of the Kingdom may be moved forward as a result of this field-day August 24.

The Heroism Test

To stand with a smile upon your face, against a stake from which you cannot get away—that, no doubt, is heroic. But the true hero is resignation. To stand unchained with a perfect liberty to go away held only by the higher claims of duty and let the fires creep up to the heart—that is heroism.—F. W. Robertson

Danger in "Stuffy Rooms"

The most important effects of "bad air" are due to its high temperature and the ill effects of even a slightly elevated room temperature, such as 75, are regarded sufficiently clear to warrant warnings against overheating.

An Inviting Retort

"Some men can appreciate single blessedness," Rose.—And some are not satisfied until they are doubly blessed.

Powerful Argument

Agent—the best thing for you is a life insurance. Just think of the heap of money you will get when you are dead.

French Invented Keyless Watch.

The first keyless watch is said to have been made by a Frenchman in the year 1734.

Peace.

Nothing can bring you peace but yourself, nothing but the triumph of principles.—Emerson

Crazed by Happiness.

Happy Father (rushing into room in the first transports of delight)—"I've got a son! It's a boy!"—London Opinion.

Texas "Midway City."

San Antonio, Texas, is nearest "midway" on the southern route from New York to San Francisco. It is 1,043 miles from New York city and 1,011 miles from San Francisco.

Worse Than Poison Ivy.

The most dangerous vegetable first fast poison is that of the tobacco tree of the Fiji Islands. One drop of the sap falling on the hand is as painful as a touch of a hot iron.

Chivalry.

The age of chivalry is never past so long as there is a wrong left unredressed on earth, or a man or a woman left to say "I will redress that wrong or spend my life in the attempt."—Charles Kingsley

Portuguese Named Japan.

The English name Japan seems to have originated with the Portuguese, who spelled the Chinese Yih-poo Japan, the letter J being silent or similar to H according to their language. This is the way the Spanish and the Portuguese still pronounce Japan.

Happiness a Duty.

No one has any more right to go about unhappy than he has to go about ill bred. He owes it to himself and to the community in general, to live up to his best spiritual possibilities, not only now and then, but every day and every hour.—Lillian Whiting.

First Tithe on Record.

Payment of the tithe was first recorded in the offering of Abraham Melchisedec.

Where to Store Coal.

Coal, when stored in a dry, airy place, will burn much better, and with much less waste, than if placed in a close, poorly ventilated cellar.

Caterpillars. Silken Nests.

Nests of silk, about the size of coconuts, are woven by the Anaphe caterpillars, which are found in central Africa.

Odd Name for Secret Society.

The Order of Mules was the name of a secret society organized by farmers in West Virginia and Kentucky, just after the close of the Civil war, to put a stop to horse stealing and other forms of lawlessness.

Philadelphia, Pa., August 10.—The Philadelphia, Pa., market for the manufacture of shoes and undergarments.

Matrimony seems, generally speaking, to be a court proposition. The game by which the man and woman ends by being tied for life.

A good way to get the rats out of a house is to collect them in a glass jar, and then throw them away. Sprinkle dry lime over the rats and place them in a sack, rat hole, you can find. The rats will soon move out.

ANOTHER STOP ON A LONG, LONG TRAIL!

YOUR WASHING DONE AS YOU WOULD DO IT

When you send your washing to us, it is handled just as carefully and as conscientiously as you yourself would care for it in your own home.

The clothes are washed in rain-soft water, with pure, neutral soap, rinsed in many more changes of soft water, dried in gentle breezes of warm air, and finished on ironers that conserve clothes life.

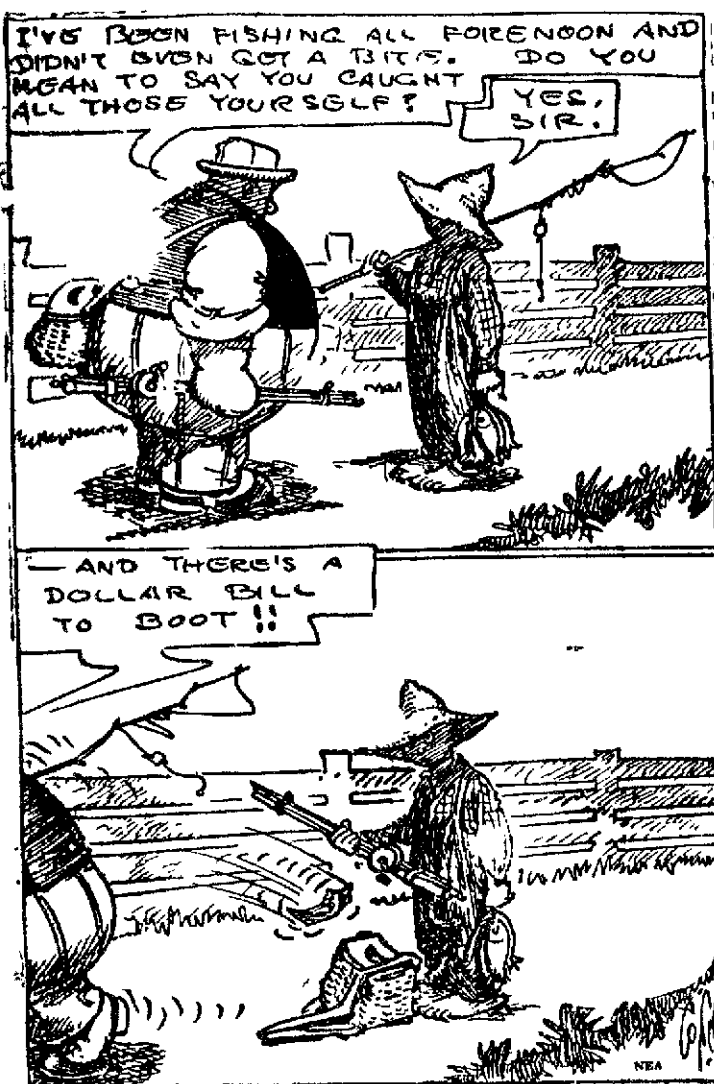

Then everything is returned to you as beautifully finished, and as faultlessly ironed as the first day it came from the shops.

You not only enjoy greater convenience—no washing in the house, no drudgery or upset—but at the same time you save money. It costs less to have your clothes done by us than to employ a laundress.

Phone and have us give you the full particulars.

Hoggson Brothers Are Equipped To Turn Out A First Class Building

The Clearfield Trust Company has started to modernize its building and remodel and enlarge its banking room into thoroughly efficient up-to-date quarters.

In order to provide additional space for its present needs and make allowances for future expansion, the Clearfield Trust Company decided that by skillful alterations, the present quarters would be enlarged and rearranged so as to obviate the necessity of a new building.

Hoggson Brothers, were consulted and plans submitted showing what could be done. The contract was concluded with this concern and the work of remodeling will go forward rapidly. Hoggson Brothers undertake to carry out a complete building operation and possess an organization which includes architects, engineers and builders. They furnish the architectural services, construct the building, decorate and furnish it and deliver it ready for occupancy. To have an entire building operation in the hands of one large organization, responsible for all the work, for the building as a whole, relieves the owner of most of the worries and annoyances, which so often attend a building enterprise, carried out in the ordinary way.

In conducting a building operation, Hoggson Brothers, for the time being at least, become a local concern and it is their policy to give every preference to local contractors, material dealers, supply people and local labor.

Fine Medieval Buildings.
There are many remains of Roman buildings in different parts of Europe. Their bricks are much smaller than ours, more like the modern tiles in shape. The workers in England called them two have all heard of Wat Tyler were probably brickmakers. Two fine examples of brick architecture in the England of medieval days are Hampton Court and Lambeth Palace, London.

Exception Noted.
Knowledge isn't always power. A man may know that he has run out of gasoline and still be unable to make his car go.

Masculine Luxury.
A man's idea of luxury is being able to always buy new socks and throw away the old ones—not to save his wife's earning, but so he can wear hose that is hot full of holes.—Cincinnati Enquirer.

Powdered Heroine.
From a Story—"A smile crept over her face." Probably the smile realized that if it went any faster it would kick up too much dust.

Why Not.
Well, if a cup is the same as a mug and that is the same as a face, my girl has one of the prettiest looking pups you ever saw.—Rehoboth Sunday Herald.

Wedding Ring Always Used.

Wedding customs have varied with changing periods but the wedding ring has always been used. Its earliest form was iron, then, in turn, copper, brass, leather, edge and adamant; and, after this, the precious metals. The first record of its use is in Genesis 4. The old Gimmel ring was cunningly fitted in two sections, so that one went to the bride and the other to the bridegroom, and it is often copied for modern brides.

Top Many Have That Idea.

"Knowledge is power," remarked the party of the first part. "Maybe so," responded the party of the second part, "but you want to stop the trolley cars from running."—Louisville Courier-Journal

Extinguishing Burning Oil.

An easy way to extinguish burning oil has been discovered by varnish factories, who use fine-meshed wire net for this purpose. As soon as the net covers the burning surface, the iron wires conduct the heat so rapidly that the gas can no longer flame. This is the principle of the Davy safety lamp.

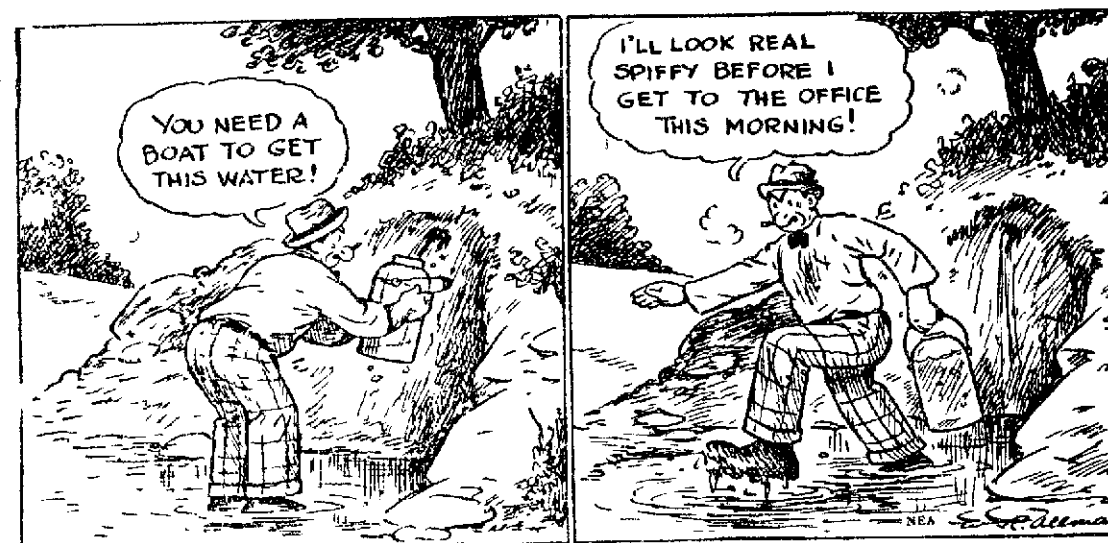

Asparagus Oldest Food Plant. Asparagus is believed to be the oldest known plant used for food.

Gossip For Tonight's Tea Table

The fall election campaign is about to open in Clearfield county. M. O. Skinner, DuBois "captain of politics," made his opening trip to the county seat today.

A. F. Martin, one of Clearfield's old-time business men, but who has been located in Pittsburgh for a number of years, is the guest of his brother, John H. Martin, at present.

Mrs. A. J. Gulich of Nichols street left today for Aspinwall where she will visit her daughter, Mrs. Henry Highfield, for some time.

Secret of Good Memory.
The secret of good memory is attention, and attention to a subject depends upon our interest in it. We rarely forget that which has made a deep impression on our minds—Tryon Edwards.

Superlative Unionism.
Steam Roller Driver (to gentleman who has slipped on a banana skin)—"Git up, guv'nor! Git up! If I pressed your trousers I'd have the Amalgamated Society of Trousers Pressors writin' a nasty letter to my union."—Windsor Magazine (London).

In Case of Fire.
Do not pull down the draperies that are on fire and thus spread the flames. Remove all objects nearby and with a wet broom smother the burning pieces as they fall.

Knowledge Possessed by Few.
There seems to be no part of knowledge in fewer hands than that of discerning when to have done.—Swift.

First Known Use of Soap.
The first mention of the use of soap was by Pliny as being made from goat's tallow and heech tree ashes.

Love of Music Deeply Rooted.
Mystic, deep as the world's center are the roots a man has struck into his native soil; no tree that grows is rooted so.—Carlyle

Asked To Kill Chicken, Girl Kills Herself Rather Than Harm The Birds

I hit, Mich., Aug. 9.—Edna Fanshield has a tender heart. Her mother asked her to kill some baby chickens that had been injured in a storm. The girl started for the coop and then turned suddenly and ran screaming to the house. "I would rather take my own life than to kill little baby chickens," she cried. Her nine year old sister ran after her to the bathroom and managed to knock a bottle of poison out of her hand after she had swallowed half of it. She has a chance to recover.

The Meancest Man.
The fellow who refused to give a blind man a kick out of a burning building.

Cultivate Patience.
Patience is the ballast of the soul that will keep it from rolling and tumbling in the greatest storms.—Bishop Hopkins.

Women Chief Retail Buyers.
It is estimated that two-thirds of the retail buying in the United States is done by women.

X-Rays on Microscope.
A microscope using X-rays has been perfected by a French scientist.

Catch A Cold With The Change?

This storm period and the chill wave that followed is going to bring a lot of colds. Bring us that cold and we'll show you how to knock the spots out of it in a short time with our cold remedy.

This remedy is a conservative worker but does its work thoroughly.
